

## BUFFALOES TAKE GAME FROM TECH

**MATADORS PUT UP HARD FIGHT FOR SCORE**

**Joe Fortenberry Is High-Point Man for Buffs; Comer Is Second**

The Texas Tech Matadors gave the West Texas Teachers their toughest basketball game of the season Wednesday night and were barely beaten by a score of 50 to 43. The game was a thriller from start to finish, keeping the huge gallery in a constant uproar as first one side and then the other forged ahead, until late in the game, when the Buffs pulled away.

The mighty Thundering Herd of Buffaloes will ring down the curtain for 1931 at Buffalo Gym tonight when they meet the Matadors in the final game on this season's schedule. The affair tonight indicates that the Herd will have to hustle to keep the final game from marred almost a perfect season. Only two losses are marked up against the Buffs so far this season; one loss to Baylor and one to Phillips "66."

Captain Hatch Brown is the only player on this year's squad who will not return next season. Brown will retire through graduation in the spring and is the only college senior on this year's squad.

No arrangement has been started for the play-off series with the winner of the eastern division of the T. I. A. A. East Texas Teachers claimed the victory of that division last week, but should they lose their game with North Texas Friday night and San Marcos win both games scheduled for this week-end, that division would be tied between East Texas and San Marcos. Coach Burton states that he expects no move to be made until after Friday night.

The game Wednesday night was almost entirely an offensive affair with the Matadors scoring from any and all angles, taking every possible shot no matter how far from the Buff goal the shooter stood.

Giant Joe Fortenberry, Buff center, was high-point man with 16 counters, while Comer, forward and tip-in artist for the winners, was next with 13. Hodges, sharp-shooting forward of Tech, led his club with 10.

The battle excelled the Buffalo-Phillips "66" contest this winter for sheer fan enjoyment, and it was apparent from the starting whistle the Matadors were a ball club, the like of which is surpassed by none in these parts save the Buffaloes.

A sizzling first half in which all kinds of basketball was displayed by both sides ended 25 to 23 for the Buffs. With 10 minutes to go in the initial period the score was tied at 13-all. Then the Buffs made it 19 to 13 by calling into use one of Burton's most famous scoring plays—the guard rushing in to take the tip off. Tech then called time out, came back from the huddle and did enough scoring in the next two minutes to knot the count at 19. Then followed one basket each and the count was 23 to 23 with three minutes left in the half. Bob Clark, Buff guard, looped in a long one from the center of the court just as the gun sounded to give his team a 25 to 23 lead.

In the beginning of the second half the Buffs fought furiously to pull up in the lead with a 38 to 29 score. Then followed the most desperate fight ever seen on a Buff court, and with the game due to finish in seven minutes, the count stood 44 to 36 with the scrapping Matadors on the short end. At this point, Giant Joe and Colossus Comer connived on some nifty timins, and with but one minute to play the score board read—Buffaloes, 50; Tech, 41. During the final minute Tech scored one field goal to cut the Buffs' winning margin to seven points.

## WALLACE R. CLARK JUDGES CONTESTS AT DALHART

Wallace R. Clark was in Dalhart Monday judging in the preliminary contests for the Tri-State contests which will take place next week. Mr. Clark, or someone chosen by him will return to Dalhart February 26 and 27 for the final contests. This is an annual event which is attended by schools from the North Plains of Texas, the Panhandle of Oklahoma and Northwest New Mexico.

John Matney of Miami spent Monday visiting with his mother and sister, Mrs. Edna Moore and Miss Eulalie Moore.

## Interscholastic League Games Here Week-end

With the cage title of District 1 of the Texas Interscholastic league at stake, high school teams will battle on the painted court of Buffalo gym Friday and Saturday for the basketball supremacy of the Panhandle. The occasion will be the annual basketball tournament of the district.

Preparations for the meet are practically completed. Pairings of the 15 teams to play in the tournament were made Monday and coaches of the various teams, notified. The first round of activities will begin at 9 o'clock tomorrow morning and the final game will be played at 8 p. m. Saturday.

The first round will be played Friday morning and Friday afternoon, with the quarter-finals Friday night. Semi-finals will be played Saturday afternoon.

Only one bi-county title remains unsettled, Canadian and Miami having yet to play to determine which shall be eligible to enter the meet.

Interest in the tournament this season is at an unusual height because of the fact that the caliber of basketball is generally a higher type this year. Spirited practice games resulting in close margin wins by teams in the meet have been played as harbingers of one of the most sensational tournaments to ever be staged here.

The Spearman Lynx with every man back in the lineup from the championship team of last year has already been installed as favorites. The Lynx title is threatened by Panhandle, Hedley, Borger, Dalhart and possibly a few more. The Amarillo Sandies would have been a menace had they been eligible to compete. School officials failed to mail in to state headquarters the necessary entry fee and eligibility blanks, and thus the powerful Sandies were eliminated by regulations before the tourney began.

The first round pairings have been drawn as follows:

Hereford vs. Quitaque, 9 a. m. Hedley vs. Canadian or Miami, 10 a. m.

Borger vs. Stratford, 11 a. m. Farwell vs. Follett, 1 p. m. Dalhart vs. Perryton, 2 p. m. Pampa vs. Spearman, 3 p. m. Panhandle vs. Happy, 4 p. m.

The quarter finals will be played Friday beginning at 5 p. m. The winners of the Hereford-Quitaque game vs. the winner of the Borger-Stratford game. At 7 o'clock the winner of Hedley-Canadian or Miami game will meet Dimmitt which drew a bye game because of the odd number of teams. At 8 o'clock the winner of the Farwell-Follett game meets the winner of the Pampa-Spearman game. The final game for Friday's activities will be at 9 p. m. when the winners of the Dalhart-Perryton and Panhandle-Happy games meet. The semi-finals will be played at 2 and 3 o'clock Saturday afternoon and the finals at 8 o'clock Saturday night. Admission to the games will be 25 cents for the morning games Friday and 50 cents for the remaining games. George O. O'Brien of San Antonio, will work as the referee of all the games. He also worked for the Buff-Tech games.

## Miss Graham and Miss Watson To Meet at Belton

Miss Edna Graham, dean of women and sponsor of the Lloyd Green Allen chapter of the Scholarship Societies of the South, and Miss Ruth Watson, a senior, left Canyon Wednesday afternoon for Belton where they will attend the annual meeting of the Council of the Scholarship Societies of the South.

Miss Watson is president of the local chapter and will represent it as a delegate.

Miss Graham stated that the feature of the meeting which is expected to be of greatest interest will be the address of Dr. H. Y. Benedict, president of the University of Texas, whose subject will be "The New Chicago Plan."

Miss Watson and Miss Graham will return to Canyon Sunday night. They are making the trip by motor.

## STORK SPECIAL

Mr. and Mrs. J. R. Vetesk of Amarillo, a seven-pound boy, Sunday, February 15. The young lad has been christened Ben Houston. Mr. Vetesk is a forer resident of Canyon.

James C. Wright of Dallas, and J. A. Miller of Amarillo, both representatives of the United States Chamber of Commerce, were at the college Tuesday and guests of the Canyon Rotary club at noon.

## GOV. STERLING APPROVES PARK RESOLUTION

**APPROVAL COMES AS SURPRISE TO LOCAL PEOPLE**

**D. E. Colp Has Met With Great Success While Touring State in Interest of Park**

Coming as a complete surprise to those connected with the movement to get the Palo Duro canyons designated as a state park site, news dispatches from Austin this morning stated that Gov. Ross S. Sterling Wednesday approved a legislative resolution, inviting congress to survey Palo Duro Canyon, Caddo Lake, the Davis Mountains and other sites in Texas suitable for national parks.

Members of the Palo Duro Park association have been entertaining hopes to secure some sort of legislation during the present session of the state legislature to make the canyons into a state park site.

Work to that end has been under way for several months and it is understood that Representative Lee Satterwhite of Odessa, former representative of this district, would introduce the park bill at this session.

D. E. Colp, head of the state park board, has been touring East Texas for the past several weeks with several reels of motion pictures showing the scenes in the outstanding proposed state park sites. His tours have been received with much interest, and in one place several hundred school children waited four hours for his arrival, which was delayed by bad roads, to see the pictures of the wonderful beauty spots of Texas.

This trip of Mr. Colp has attracted much newspaper comment and the idea of the park sites has spread rapidly in the eastern part of the state.

A display of pictures of the Palo Duro at the state capitol for the benefit of the legislators and to be exhibited by Ray V. Davis, for a period of several days time has been considered by the Palo Duro Park association. Various chambers of commerce in this region have agreed to bear the expenses of such a trip, should it be made at an early date.

## Barnett Speaks To Happy Teachers

Dr. Albert Barnett, professor of education in the West Texas State Teachers college spoke to the faculty of the Happy public school at a teachers meeting last Thursday. Professional improvement gained through extension courses, professional magazines and special study of school room problems made up the general theme of his talk.

"Now, while the country is in the midst of an economic depression is the time for a business man to prepare for the busy time ahead," stated Dr. Barnett. "So it is with the teacher who is experiencing cuts in salary from an over supply of teachers."

## R. B. Binnion Of Peabody Visits College Thursday

In the Panhandle surveying the field for suitable subjects for theses and dissertations, Dr. R. B. Binnion, provost of Peabody College for Teachers, Nashville, spent Thursday in Canyon conferring with President J. A. Hill of the college, and with Dr. R. P. Jarrett, Dr. Harris M. Cook, Dr. Albert Barnett and other graduates of Peabody College.

Dr. Binnion was from 1917 to 1924 president of the East Texas State Teachers College at Commerce, and also, before that was assistant state superintendent of Texas.

Interviewed in Canyon as to what he found most interesting in Texas educational development at this time, he said "To me the most significant thing that has occurred recently in Texas is the authorization of the Texas Teachers Colleges to grant the Master's Degree. This is essential, if they are to keep pace with the needs of the public school system which the state is rapidly developing."

He added "The growth of Texas Teachers Colleges from small, unrecognized junior colleges to standard colleges offering graduate work has all come about within about seventeen years. This is the most remarkable educational progress that has been seen in the United States. I want everybody to know that I believe in this latest step."

Dr. Binnion expressed much interest in the W. T. demonstration school building, saying that he doubted that it has a superior in the nation.

Dr. Binnion was one of the speakers at the Oklahoma State Teachers Association at Oklahoma City last week. From Canyon he returned to Nashville for a meeting of the Peabody College board of trustees.

## Atkinson, Staley Bourland, Lead In Beauty Contest

Last Friday afternoon the standing in the race of the beauty contestants was, from the first down, Atkinson, Staley, Bourland, Snodgrass, Williams, Bain, Louder, Golden, Pitts, Root, Lester, Sears, Gamble and Weaver.

Pictures of these beauties, which were loaned to the annual staff by Mr. R. V. Davis as a courtesy to all interested in the contest, have been on display in the Publications office this week and last. It is extremely necessary, according to staff reports, that greatest care be taken to keep these pictures just as they came from the studio as they do not belong to the staff.

These fourteen contestants will present a play in the near future, but neither the name of the play, nor the date of performance has been given out. Voting will end the evening this play is presented.

Gordon McCarty returned Saturday from Chicago where he has been attending market.

## COUNTY TO GET PAGE IN P. OF T. BOOK

**PUBLICATION TO CONTAIN 50 PANHANDLE SCENES**

**W. H. Upchurch, Ray V. Davis and Mrs. T. V. Reeves Selected to Obtain Material**

Randall county will have a full page in the handsome rotogravure publication which will be put out by the Panhandle of Texas, Inc., and will be sent to fairs and other meetings throughout the United States during the coming summer and fall.

This was decided at a meeting of the directors of the local Chamber of Commerce, Tuesday night, when President J. A. Hill, who is vice president and chairman of the finance committee for the Panhandle of Texas, Inc., explained the plans of the organization.

Heretofore, the organization has had no advertising matter that could compare with that sent out by other regional organizations similar to this one, and as a result the whole Panhandle has suffered in the estimation of persons who were seeking new locations, according to H. M. Luna of Amarillo, who has gone with the exhibits in years past, and W. H. Upchurch, who has watched the handling of material.

The new publication, which will have approximately 50 pages of the best pictures that can be secured in the Panhandle, will set forth the resources and advantages of the Panhandle region, each county which belongs having a full page.

W. H. Upchurch, Ray V. Davis and Mrs. T. V. Reeves were chosen to select and arrange the material for Randall county's page. It was explained that these handsome books will not be carelessly distributed, but will go only to persons who are interested in locating in the Panhandle, or who are in a position to disseminate the information given in the publication.

President Hill suggested that this publication would be extremely valuable for distribution at the meeting of the Texas State Teachers Association at Amarillo (Continued on last page.)

## Add Two More Highway Men

Further proof of the state department's interest in Panhandle highway development is seen in the announcement Saturday by P. S. Bailey, division engineer, that two more resident engineers had been assigned to the Panhandle division.

The new men will be placed in Canyon and Pampa to supervise the construction program those counties are facing.

The new men, whose names have not been announced, will take up their duties in this division by the first of March.

The placing of the men in the (Continued on last page.)

## CASH PRIZES TO BE GIVEN FARMERS ON PRODUCE THAT IS MARKETING HERE MONDAY

*Many Unusual Features are Being Planned By Chamber of Commerce to Make Monthly Event Beneficial to Farmers and Townspeople.*

## Program Announced For Panhandle Herd Association Meeting

On Thursday, April 2, farmers from all over the Panhandle section will gather in Canyon to attend the second annual Panhandle Herd Improvement School to be held at the college. With prominent farm specialists having been arranged for, the program promises to be a highly instructive one. Following is the program announced:

Second annual Panhandle Herd Improvement School, Canyon, Texas, Thursday, April 2, 1931. J. A. Bush, leader.

10 a. m.—School called to order by J. A. Bush, Amarillo, Texas.

10 a. m.—Progress of Field Seed Certification, by R. V. Miller, chief, division of field seed certification, state department of agriculture, Austin, Texas.

10:30 a. m.—Distributing Certified Seed, by D. L. Jones, experiment station, Lubbock, Texas.

11 a. m.—How the Canyon Chamber of Commerce Handles Farmers' Seeds, by L. N. George, secretary, Canyon Chamber of Commerce.

11:30 a. m.—Discussion led by County Agent W. H. Upchurch, Canyon, Texas.

R. O. Dunkle, Hereford, leader. 1:30 p. m.—E. M. Regenbrecht, swine husbandman, A. & M. College of Texas, College Station, Texas.

2:30 p. m.—McClain County Sanitary Plan, by Dr. Verne Scott, professor of veterinary medicine, John Tarleton Agricultural college, Stephenville, Texas.

3:30 p. m.—Canadian Control of Hog Cholera, by C. C. French, Fort Worth Stock Yard company.

4 p. m.—Promotion of Hog Growing in the Panhandle, by P. C. Bennett, county agent, Amarillo, Texas.

Visit to Palo Duro Hog Farm for purpose of demonstrating show type.

## Friday, April 3, 1931

C. B. Martin, Tulsa, leader. 9:30 a. m.—Grain Sorghum Seed Certification, by R. V. Miller.

10 a. m.—Common Diseases of Dairy Cows, by Verne Scott.

11 a. m.—Abortion Control Measures, by representative from livestock sanitary commission, Fort Worth, Texas.

11:30 a. m.—County Agents Part in Dairy Development, by J. R. Edmunds, district agent, A. & M. college.

Noon—Master Dairy Farmers' luncheon, S. B. Holman, leader. Roy Davis, Plainview, leader.

2 p. m.—Results of News-Globe Master Dairy Contests, by Henry Ansley, El Paso, Texas.

2:30 p. m.—How Master Dairy Farmer Winners Are Chosen, by A. L. Darnell, professor of dairy husbandry, College Station, Texas. (Note: Professor Darnell has been on the judging committee each year for selecting Master Dairy Farmer winners.)

3:30 p. m.—Feeding Silage from Trench Silos, by J. W. Watson, first prize winner, 1930 Master Dairy Contest.

4 p. m.—Marketing Dairy Products, by J. H. McClain, extension specialist, U. S. D. A., Washington, D. C.

## Saturday, April 4, 1931

George P. Grout, Panhandle, leader.

10 a. m.—Producing Hatchable Eggs, by E. N. Holmgren, extension poultry specialist, A. & M. college.

11 a. m.—Putting Over A. P. A. Shows, by B. H. Hopkins, Hereford.

11:30 a. m.—Training Poultry Judging Teams, by A. A. Tampke, McLean.

Noon—Hatcherymen's luncheon. 2 p. m.—Poultry Diseases and Management, by R. B. Galloway, poultry specialist, Hardeman-King Co., Amarillo.

2:30 p. m.—Bad Luck in Poultry Business, by E. N. Holmgren.

3 p. m.—Parasites and Their Control, by E. F. Lanham.

Herb Miller of Lubbock visited in Canyon a short while Monday.

Mrs. C. R. Burrow visited in Amarillo Tuesday of this week.

A dozen eggs will bring more than \$2.50 to some lucky farmer on trades day, Monday, February 23! This price is not a joke but a promise, according to L. N. George, secretary of the Chamber of Commerce, who states that many unusual features are being planned by that organization to make our coming trades day one of the greatest that Canyon has ever known.

As an added inducement for the farmers of the surrounding country to come to Canyon next Monday, the Chamber of Commerce is offering cash prizes for high-class produce which is marketed here. These prizes are as follows: \$2.50 to each of the farmers who brings in the heaviest dozen eggs, the heaviest hen, the highest test cream, and the pound of butter from the greatest distance.

Besides these prizes from the Chamber of Commerce the merchants of the city are awarding merchandise prizes to those who come the farthest in order to be in Canyon on that day and to others in the community who trade in town Monday. Auction sales, cut prices, and bargains galore are being offered and preparations are being made to care for a large crowd of shoppers.

Make your plans and preparations to attend the February trades day in Canyon. It will be to your interest, to the interest of every person living in the Canyon trade territory to be here and to take advantage of the many bargains offered. Perhaps it will be your merchandise that will win the prizes.

## Fine Jersey Herd Bought by Tierra Blanca Jersey Farm

What is believed to be the finest herd of Jersey cattle ever assembled under one ownership in the Texas Panhandle has been acquired by R. L. McSpadden of Amarillo, owner of the Tierra Blanca Jersey Farms, five miles east of Canyon. The herd includes 16 head of mature animals, of the Gamboe Knight blood, developed by R. C. Nicholl, formerly of Tulsa but more recently of Roswell, N. M. The purchase was negotiated through P. C. Bennett, manager, agricultural department, Amarillo Chamber of Commerce, who is acting in advisory capacity for Mr. McSpadden.

This is one of the most famous herds of cattle ever developed in the southwest. In the 16 head of mature animals are included 14 head of females, boasting six silver medal and two gold medal cows, four state class champions, the winners of three consecutive milking contests at the Plainview show, and one cow that was grand champion at Plainview. Gamboe Knight's King, the senior herd sire, is a silver medal animal, and the junior herd sire, Agatha's King Tarzan, is his son, out of the gold and silver medal cow, Gamboe's Fox's Agatha, whose mature record was 17,311 pounds of milk.

The dairy cattle division will be under the supervision of Edgar A. Poe, formerly of Tulsa, and well known in this section as an experienced Jersey breeder and authority. No expense has been spared by Mr. McSpadden in endeavoring to make his farm the headquarters for the Panhandle for breeding stock in Jerseys and in hogs. A modern dairy barn has been erected, sheds and pens for cows, bulls and calves installed, and a complete independent water system worked out. Two hollow tile silos will be put in as soon as workmen can get to them. Sixteen Jamesway stanchions for the cows are already in place.

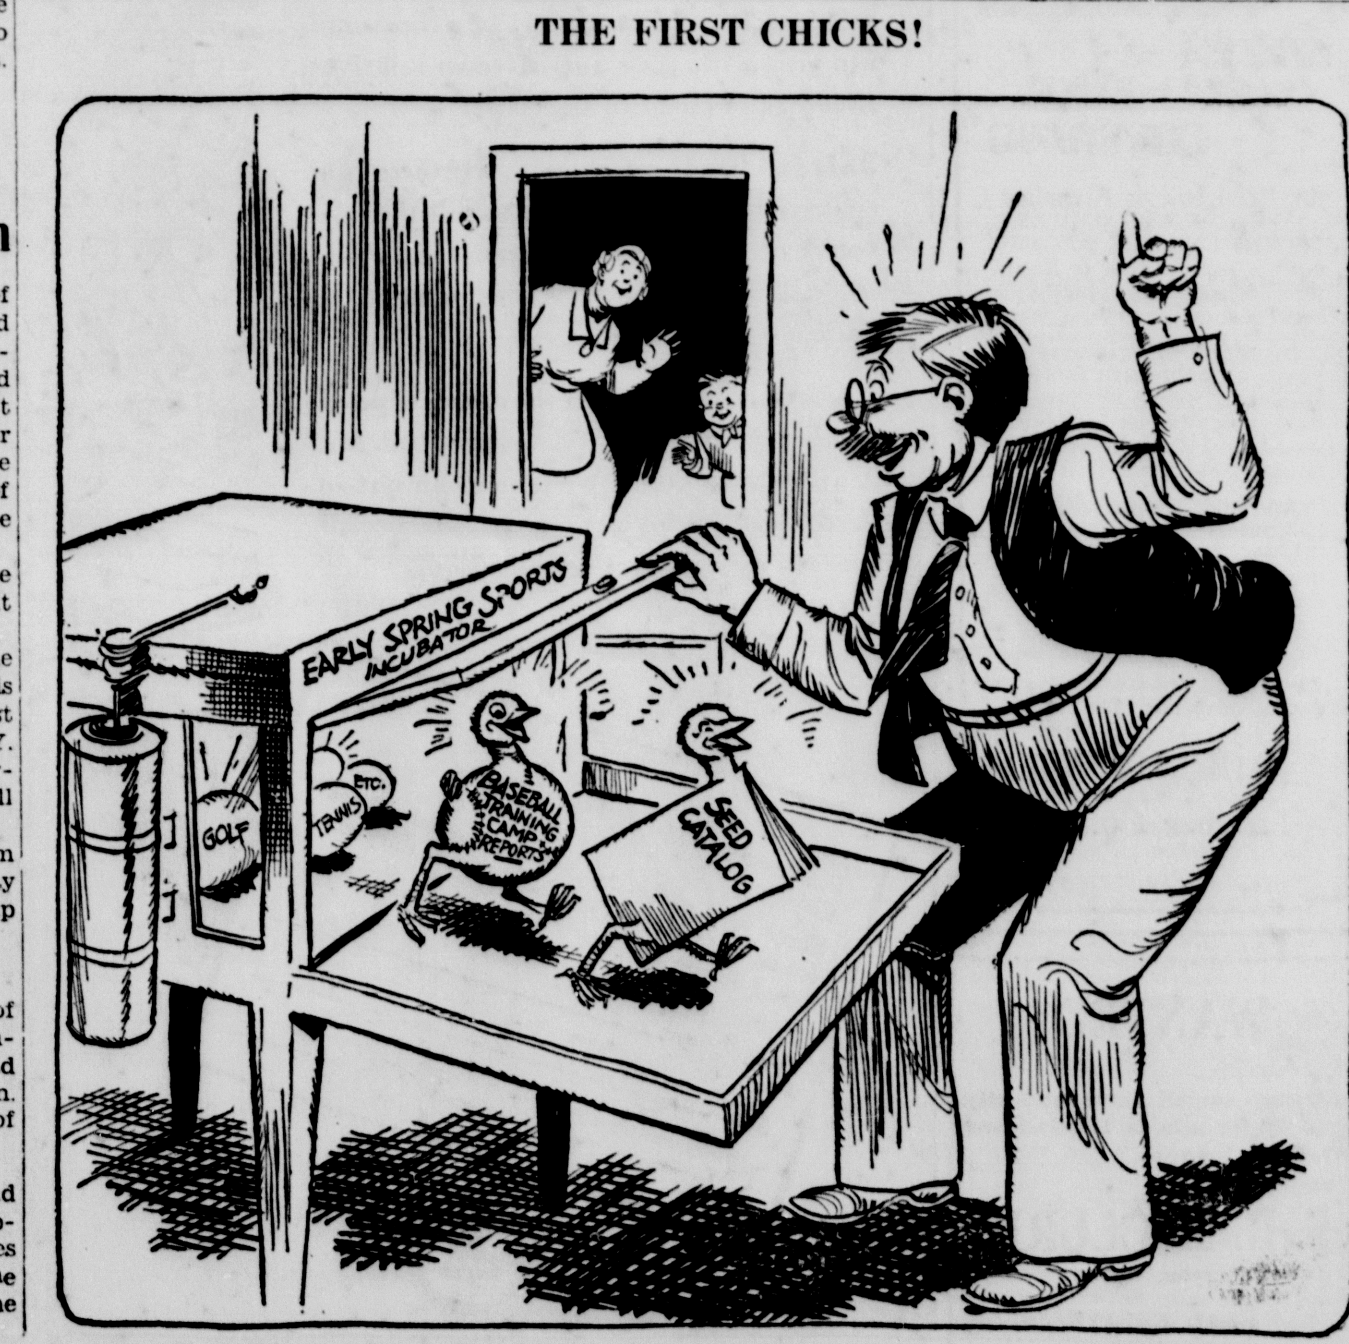

## MARRIAGE LICENSE

G. R. Dwight and Nina Merle Lively of Amarillo.

Will McCarty, Canyon, and Lalah Whitaker, Amarillo.

Diamonds and wedding rings, E. Burroughs, jeweler.

A. H. Bryant, Robert Boling and Terry Mayben attended a safety meeting of the Texas Utilities company held in Plainview, Tuesday.

# The Canyon News

CLYDE W. WARWICK  
Owner and Publisher

SUBSCRIPTION \$1.50 PER YEAR

Entered at the postoffice at Canyon, Texas, as second class matter. Published weekly at office, 1513 Fourth Avenue, Canyon, Texas.

THE SECOND MONTH BEGINS  
By Clyde W. Warwick  
(Representative 123rd District)

The second month of the 42nd Legislature started Thursday under the terms of the new constitutional amendment. This month will be devoted very largely to committee hearings on the more than nine hundred bills now pending in the House and something like six hundred bills pending in the Senate. In order to facilitate business the policy for morning sessions and committee meetings in the afternoon has been adopted. Local and uncontested bills will very largely be heard in the short morning sessions. The next sixty days will see a big calendar of bills which have been reported by the committees and the Legislature working day and night in an attempt to pass upon these bills before the end of the session. Busy times are ahead for the workers under the big dome at Austin.

The State Auditor has recommended the commission form of government for our State. Why not?

As things are now running, each department is independent of every other department. In rush times, one department cannot call upon another department for assistance although several may have excess of employees.

The State Capitol is carefully blocked off and a porter in one department dares not cross an imaginary line in the Capitol for fear he will trespass upon the work of another porter.

The State Treasurer can tell nothing about the Comptroller's office and likewise the Comptroller cannot guess within a half million dollars of what the State Treasurer has on hands. Departments may and usually do work at loggerhead with each other. That is because we elect too many minor officials in the State. The average voter has no opportunity to know or weigh the qualifications of the candidates for these minor offices, which pay only \$2,500 per year. Under the Commission form of government the Governor would appoint these officials, and be responsible for their acts.

Governor Sterling has clearly indicated his desire to work with and to be friendly to all departments. He suggested in his inaugural address that the department heads confer with the State executive in order to work out the vexing problems of State.

The state auditor has been commissioned to install a bookkeeping system which will allow the comptroller and the treasurer to check in order that the State may tell something about its resources and its cash balances. It took the auditor, treasurer and comptroller nearly a week to ascertain definitely the financial condition prevailing in the State at the present time.

Beginning Monday afternoon the next month will be devoted by the appropriation committee of the House and finance committee of the Senate to working out details of the appropriation bills for the coming two years. The teachers colleges will be heard by both the House and Senate committees the week of February 23.

It is hoped that the appropriation bill will be passed by the

middle of April in order that the Governor may not be left with the money bills on his desk to do with as he pleases after the legislature adjourns.

Just what will become of the many tax bills introduced so far is yet problematic. Some fellows always insist that the other fellow should pay the tax. That is quite natural. The land owner wants the business man to pay for the state government; the man with a small salary wishes to push off the tax burden on the fellow with a larger salary; we are all willing that the railroads, electric lines and other utilities bear the brunt of taxation; the pasture is always a little greener just over the fence; few of us have human capacity to appreciate the problems of the other man whether these problems be social, business or economic. But passing the buck in taxation is not so easy as it may sound. One thing certain is that we cannot build a great State without industries; we cannot have large industries if we impose an unjust State burden by our taxation system. Every individual, firm and corporation has a right to live if his business is legitimate and should not be hampered with unjust taxes.

An interesting development is being watched at Austin.

The unemployed or a certain amount of the unemployed marched on Austin last week. A few score of negroes and Mexicans with a sprinkling of whites made up the delegation. Under the direction of rangers the men were welcome to the capitol grounds. A committee from the agitators was conducted into Governor Sterling's office where they were asked to state their position and suggest remedies for unemployment. The leader refused to answer the point blank question of Governor Sterling as to how long he had been out of work, what position he formerly held and his connection with the labor agitators.

This was quite a contrast to the reception Governor Bill Murry gave the unemployed at Oklahoma City. Alfalfa Bill was elected for his sympathy with the poor man. He refused to allow a gathering of unemployed on the capitol grounds.

Governor Sterling, a multi-millionaire, allowed a meeting right under the window of his private office and asked that a committee come in to talk it over.

Three prominent Americans who figure in the coming Democratic Convention are the talk of Austin. Will Rogers, the wise humorist, has been here, and a boom for President has been started for Rogers by Jim Ferguson. Will Rogers is neither a wet nor a dry. He has more common sense than half of the business men and can see the funny side of life.

Senator J. Ham Lewis of Illinois made his appearance to the Legislature last week. He is dripping wet and has won many a political battle for the Democrats in the rock ribbed Republican State of Illinois.

One hundred sixty of the one hundred eighty-one members of the Legislature have addressed an invitation to Governor Franklin Roosevelt of New York to address this body before the end of the session. Roosevelt is noted as a wet but does not make this his sole issue as did Al Smith.

It looks like some mighty good presidential timber had been circulating around Austin. Friends of Dan Moody link his name with Roosevelt as a possible candidate for vice-president if the New Yorker heads the Democratic ticket.

The college students may not study geography, but they all know where the girls schools are located.

A man's face may not be his fortune but some men acquire a fortune on their faces.

## ARTICLE BY L. F. SHEFFY IS PUT IN 'CATTLEMAN'

OLD TOWNS OF TEXAS ARE DESCRIBED IN HISTORICAL DOCUMENT.

Prof. L. F. Sheffy, head of the history department, has an article of historical value and interest to many people of the Panhandle in the February issue of The Cattleman. The article entitled "Old Mobeetie, the Capital of the Panhandle." Mr. Sheffy says that Panhandle towns, like the longhorns, have been surpassed by more favored rivals.

The article opens with an account of caravans loaded with lumber and supplies wending their way to Hidetown in Wheeler county. Mr. Sheffy then tells of the establishment of Fort Elliot by the United States government, and the growing up of Mobeetie in the shadow of this fort. He then recounts the establishment of two more old towns, Tascosa and Old Clarendon, and a short history of the settlers and life of these three historic settlements.

The article closes with an account of the coming of railroads to the Panhandle, and the influence of their establishment upon the towns situated on their lines. These three old towns were cut off by these roads, and new towns sprung up to take their places.

## Paper by Mrs. T. V. Reeves To Be Read At Michigan Meet

Wednesday afternoon at the Ninth Annual Conference of the Teachers College Extension Association, which was held at the Michigan State Normal College, Ypsilanti, Michigan, the West Texas State Teachers College was represented on the program with a paper by Mrs. T. V. Reeves, entitled "A Study of the Field."

Mrs. Reeves was unable to make the trip, but her paper was sent to be read before the meeting.

Such subjects as the amount of extension work taken by students in teachers colleges in relation to the economic and industrial status of the territory served, the extent and nature of non-credit extension courses in teachers colleges, the relative value of extension class work as compared with residence work, and many others were discussed at this meeting.

W. T. is one of the leading colleges in Texas in the field of extension work, which is in charge of the Bureau of Public Service, of which Mrs. Reeves is in charge.

One of the most annoying things about hard times is having to listen to so many foolish explanations.

Help Keep Canyon Clean!

GIVES A METAL-LIKE COVERING

WHEN you have applied LOWE BROTHERS FLOOR ENAMEL you will have a surface that is hard, durable, and one that will wear years and years.

In addition, it is easy to clean, a quality that is most appealing to the housewife. And it may be used on both wood and cement interior floors.

Another feature of Floor Enamel is that it is quick-drying. You can apply it in the evening and use the floor the next morning.

Floor Enamel may be used with equal satisfaction on woodwork—also on interior decks of boats and ships.

## "CLARENCE" IS HIGH SCHOOL SENIOR PLAY

ROYAL PITTS PLAYS LEAD IN TARKINGTON COMEDY; ADMISSION 50c.

Under the directorship of Mary Morgan Brown, head of the department of speech, and Gordon Beck, a major in speech, the W. T. High School senior play, "Clarence," by Booth Tarkington, will be presented in the Education Building auditorium next Saturday evening, February 21, at 8 o'clock.

The cast of "Clarence" has been chosen entirely from among the high school students. Royal Pitts will play the title roll of Clarence, supported by an able corps of actors, as follows:

Mr. Wheeler, head of a "rowing family,"—George Bishop; Bobby Wheeler, his son, Joe Hill, Jr.; Cora, Bobby's sister, Pollyanna Pitts; Della, the housemaid, Irene Hogland; the butler, Charlie Archer; Miss Pinney, the governess in the Wheeler household, Maurice Warren; Mrs. Martin, secretary to Mr. Wheeler, Helen Johnson; Mrs. Wheeler, Anne Costley.

"Clarence" is a lively comedy, overflowing with the ironical, gently ridiculing humor so characteristic of Booth Tarkington. The play portrays the most trying and most interesting phases of adolescent and adult life, never failing to bring out the fun which is in every situation when viewed objectively. It is Booth Tarkington at his best. In "Clarence" the author of

"Seventeen" has surpassed himself, and in the presentation Saturday night will be seen his characters in flesh and blood.

Admission to the play will be fifty cents (50c) for everyone, both children and adults.

## Four Students Take Annual Med Test Here Friday P. M.

Four W. T. students reported for the Scholastic Aptitude Test for Medical Students given in room 211 Friday afternoon at 3:30. In the absence of Dr. Jarrett, Dr. Harris M. Cook and Dr. Albert C. Barnett were in charge of the giving of the test. The students who took the test were Robert Jarrett, Jr., Joe Montgomery, Mrs. Mary Jane Mason and Alvis Yarborough.

The Scholastic Aptitude Test is given to improve the present methods of predicting the scholastic success of those students who plan to enter medical schools.

This test is the first of its kind ever given here. It is given as an annual event.

## HOW TO SAVE MONEY on LONG DISTANCE CALLS

NEARLY twenty thousand persons have requested FREE copies of a personal out-of-town telephone directory in the last six months. You, too, may find this book helpful because:

1. It tells you how to get the fastest long distance service at the lowest cost.
2. It lists the names, addresses, telephone numbers, and the exact cost of a three-minute visit with your out-of-town relatives, friends, and business associates.
3. It is a handy reference . . . if there is an emergency . . . if you want to tell the folks you're driving up for the week-end . . . if a slight touch of homesickness seems to require a distant voice.

List on a sheet of paper the names of people in other cities you have occasion to call. Mail it with the coupon. We'll send an out-of-town telephone directory, prepared especially for you, without cost or obligation.

# BUILDING This Spring ?

—No, it is not too early to begin planning that new building or improvements on the old! In fact, NOW is the proper time to make the plans.

—We are equipped to assist in the plans, and our services are most cheerfully given. It is our business to render such assistance. We make building and construction problems our life work, and you are invited to take advantage of our long experience and willingness to assist you.

—Many are now planning new buildings or improvements, and if you will consult us, you will find that never before was there a better time in which to make them!

## Burrow Lumber Co.

Everything for your Building Needs

Yards at Happy, Slaton, Dalhart, Perryton, Canyon and Beaver, Oklahoma.

A Good Appetite?

YES—then work seems like play!

THAT is the right way! Don't starve your system—those red-blood-cells, when lowered in number, may cause serious trouble. In fact, if the tendency of a lowered red-cell count is allowed to continue, ANEMIA may result.

Body weakness, lack of appetite, underweight, paleness, sallow complexion, pimples and boils are symptoms of a low blood count. These may indicate that you need S.S.S.

S.S.S. restores the red-blood-cells to normal. Your appetite picks up, your whole body is strengthened, invigorated! You, too, may soon possess a wonderful power of new life and vitality. Get the large size bottle. At all drug stores.

S.S.S. Co.

Makes you feel like yourself again.

### MRS. RHEA ROBBINS HOSTESS TO CLUB

Mrs. Rhea Robbins was hostess to the members of the Loyal Dozen club and a number of special guests at her home last Friday afternoon. Those present observed a needlework hour and a delicious dessert course was served at the tea hour. Pot plants were lovely decorations in the reception room.

Guests were: Mrs. W. T. Simmons, Mrs. Clyde Johnston, Mrs. Alex Love, Mrs. Felix Pierce, Mrs. N. T. Dickerson, Mrs. V. L. Briscoe, Mrs. Harry Inman, Mrs. C. C. Morton, and Mrs. Fred Wortham.

The club will meet tomorrow afternoon at the home of Mrs. Inman.

### MISS MINNIE McCARTY HONOREE AT DINNER PARTY

Miss Minnie McCarty was delightfully surprised last Friday evening when her mother, Mrs. Annie V. McCarty, and her sister, Miss Nora McCarty, entertained with a dinner party in her honor. The affair celebrated her birthday anniversary.

The table was laid with a white cloth and centered with a cake and candles, surrounded by sweet peas and snap dragons.

Seated were: Miss McCarty, honoree; Miss Lorena Frieze, Miss Velma Thomas, Miss Maxine McKenney, Miss Leona Belle Ainsworth, Miss Geneva McCarty, Miss Lalah Whitaker, Will McCarty, Mr. and Mrs. W. A. Warren and the hostesses.

Miss Lorena Frieze visited friends in Tulsa over the week-end.

Virgil Thomas of Canadian spent the week-end in the home of his parents, Mr. and Mrs. D. M. Thomas.

### VALENTINE TEA GIVEN BY OSGOODS SUNDAY NIGHT

Mr. and Mrs. L. A. Osgood entertained a few of their friends with a Valentine tea Sunday night, February 15, at their home on Third avenue.

Tea was served to Miss Mary Morgan Brown, Miss Helen White Moore, Miss Jennie C. Ritchie, Miss Novella Goodman, Miss Jean Moore, Miss Mattie Swayne, Mrs. George P. Wood and the host and hostess.

### VALENTINE PARTY IS ENJOYED AT BUICH SCHOOL

Friday afternoon, February 13, at the Buich school with the pupils of the Brady school present as guests a Valentine party was held from 1:30 to 4 p. m. A number of the parents of the school children and the smaller children of the two communities were present.

Following several indoor games which were played, Rena Belle Roddy was elected postmaster and Oma Keeter and Bernice Moore as assistants to distribute the Valentines when the Valentine box was opened.

Refreshments of ice cream and cake were served by Miss Montye Rockwell and Mrs. Shires.

### MCCARTERS ENTERTAIN WITH BRIDGE PARTY

Mr. and Mrs. T. B. McCarter entertained with four tables of bridge at their home Tuesday evening February 10. The Valentine theme was carried out in the decorations.

A delicious salad course was served to Mr. and Mrs. L. A. Osgood, Mr. and Mrs. Oscar Gamble, Mr. and Mrs. R. A. Terrill, Mr. and Mrs. S. L. Ingham, Mr. and Mrs. C. L. Thompson, Mr. and Mrs. Bert Newlin, Mr. and Mrs. L. G. Allen, and Mrs. George Wood.

### LOVELY VALENTINE PARTY GIVEN BY DR. AND MRS. W. B. STEVENSON

Outstanding among the Valentine season social events was the party given by Dr. and Mrs. W. B. Stevenson of Amarillo Saturday evening at their home, 2422 Hughes street, entertaining a number of their friends among the W. T. students.

A unique feature of the evening's entertainment was a "movie" given just after the guests arrived, by Mr. T. M. Caldwell with his own machine and reels. The pictures, in three reels, showed Hollywood, California scenes, New Mexico scenes, and a life-story of the wild wolves which are being killed out of the country. The pictures were taken by Mr. Caldwell himself. He has done a great deal of work of this kind over the country.

At the five tables of bridge, which followed the showing of the moving pictures, the Valentine motif was carried out. Tallies were halves of hearts to be matched for table partners. An unusual idea was the giving of a prize to the progressing couple at each table after every rubber. At the end of the play high score prize went to Miss Hazel Allen, and consolation to Guilford Miller.

Following the close of the games a buffet luncheon consisting of heart-shaped sandwiches, tomato salad, coffee and cream, cake and chocolate hearts, was served to those present.

Parlor slight-of-hand tricks by Mr. Caldwell, and fortune-telling with cards by Mrs. Caldwell furnished after-luncheon amusement.

The list of guests included: Miss Hazel Allen, Miss Cornelia Hunter, Miss Lonnie Beth Weaver, Miss Bertha Pattenghe, Miss Josephine Duflot, Miss Pearl McClure, Miss Mary Lockwood Sternberg, Miss Beth Pitts, Miss Jessie Louder, Miss Frances Snodgrass, Miss Florence Snodgrass, and Mrs. T. M. Caldwell; Gene E. Lewis Shirley, George Heard, Herman Troutman, William Dawes, Guilford Miller, Howard Batchelder, Durward Brown, Winston Savage and T. M. Caldwell.

### EVELYN SHANKLIN HONORED WITH BIRTHDAY PARTY

Mrs. J. W. Shanklin honored her daughter, Evelyn, with a birthday party Saturday night, February 14. The Valentine theme was carried out in the decorations and refreshment course.

Seated for bridge were Misses Evelyn Shanklin, Audrey Cayton, Mary Berryman, Lorraine Alvord, Ruth Chatham, Etel Ruth Collins, Dorothy Cash, Geneva Golden, Virginia Jarrett, Messrs. Jim Crowder, Malcolm Hunt, Weldon Rogers, Rufus Dodgen, Winfred Fowler, Dr. H. G. Grainger, Robert Jarrett, Charles Ferguson and Frank Monroe.

### GOODMAN HONORS SISTER WITH PARTY SATURDAY

Naming her sister, Miss Elizabeth Goodman of Miami, as guest of honor, Miss Novella Goodman entertained for her friends with three tables of bridge, at her apartment on Fifth avenue Saturday night, February 14.

Guests included Mr. and Mrs. F. E. Savage, Mr. and Mrs. L. A. Osgood, Mrs. George P. Wood, Miss Jean Moore, Miss Isobel Robinson, Miss Mattie Swayne, Earl Crouch and A. W. Mack.

Mr. and Mrs. G. E. Stotts and sons of Borger, Texas, visited with Mrs. Stotts mother and sister, Mrs. Edna Moore and Miss Eulalie Moore, during the week-end.

Mr. and Mrs. C. P. Money of Clapham, N. M., visited in the parental, Elsie Money and Stella Murrell homes over the week-end.

Farming pays in Randall county.

Will you have to start from the beginning again... and save and save for a home? Or will the fire insurance companies cheerfully and promptly assume all losses?

Lizzie Schaeffer to E. W. Schaeffer, NE 1-4, section 137, block M-9. Consideration, \$10 and valuables.

### DELIGHTFUL PARTY GIVEN AT OSGOOD HOME THURSDAY

One of the most delightful affairs of the Valentine season was the bridge party given Thursday evening by Mr. and Mrs. L. A. Osgood and Mrs. George F. Wood at the Osgood home, 2711 Third avenue.

The large living room was artistically decorated in Valentine colors. From the ceiling beams hung streamers and festoons of red carrying hearts and cupid. The same motif was carried out in the dining room and study. Tulips and pussywillows added to the decorative scheme.

Seated were Mr. and Mrs. D. A. Shirley, Dr. and Mrs. S. L. Ingham, Mr. and Mrs. W. C. Black, Mr. and Mrs. Oscar N. Gamble, Mr. and Mrs. C. A. Murray, Mr. and Mrs. C. W. Batchelder, Mr. and Mrs. Clarence Reeds, Dean and Mrs. R. P. Jarrett, Mr. and Mrs. T. B. McCarter, Mr. and Mrs. J. L. Duflot, Mr. and Mrs. Bert Newlin, Mr. and Mrs. Clarence Thompson, Mrs. L. G. Allen, Miss Alice Dawes, Mr. William R. Dawes, Miss Marcia Batchelder officiated with the call bell for progressions.

Attractive heart-shaped candy boxes served as favors, which were distributed just before the salad course luncheon.

High score was won by Mrs. J. L. Duflot, and consolation went to Mrs. W. C. Black.

Mr. and Mrs. A. J. Newberry and family of Happy visited in the parental C. Shuman home, Sunday.

Help Keep Canyon Clean.

## News in Canyon 25 Years Ago

(From the files of the Canyon City News, Fri., Feb. 16, 1906)

Bunk Long has a position with the Canyon National bank.

W. E. Knight of Corder, Mo., is in town this week prospecting.

Three cans of Justice corn for 25 cents. D. N. Redburn.

Geo. M. Hunt of Lubbock, is here visiting his sons, I. L. Hunt and Alvin Hunt.

J. O. Miller and wife of Lawndale, Ill., were here several days, returning home Tuesday. He purchased the C. I. Montgomery two sections of last year and talks of moving out there some time in 1907.

Friday evening, February 9, at the residence of G. C. Long, T. E. Money and Miss Elsie Kilgore were made man and wife.

Miss Kilgore has charge of the music department of the public schools. She came here last year from Tennessee, is a relative of the Longs and has made many friends both in and outside of her school work.

Edgar Money is one of our best citizens, not tender in years nor yet old, but just in the prime of young manhood and quite capable of making his way in the world. The News calls it a "surprise wedding" because it was wholly unexpected by the many friends of both contracting parties.

Monday seven cars of the grading outfit for the "railroad south" arrived and more are expected ere the close of this week.

John Dennis Murphy is the name of a new citizen. He came to the home of Mr. and Mrs. J. S. Murphy February 12, and is going to stay here.

February 10, to George Runyon and wife, a boy.

Miss Amelia Wilson is now taking turns with John Howell serving as "central."

L. T. Lester made a business trip to Amarillo the first of the week.

Miss Columbia Redfearn returned the first of the week from Dallas where she has been attending market.

J. C. McDaniel returned Tuesday from Fort Worth where he has been transacting business since Thursday.

## HONESTY

is not enough...

... honesty plus ability and experience is necessary to safeguard your family's welfare after you are gone. Consult us regarding your financial problems.

## First National Bank

## Worth Your While

You have to pay for the gas you burn, but you do not need to burn any more than JUST ENOUGH to get the results you want.

IT IS A UNIQUE VIRTUE of natural gas that RESULTS ARE BETTER when you burn just enough than when you burn more than is necessary. Economy and satisfaction make a happy combination that comes from burning gas in the RIGHT WAY.

THESE RIGHT WAYS of burning gas are worth your while. The recommendations and suggestions which our experts offer you mean money and satisfaction to you if you will but use them.

You may be satisfied, and, yet, we can show you how to get still better results. It's very simple and easily done. The great rub of the matter is that the better you burn gas, the less gas you need to burn. It is an actual fact that improving the results you get from the gas also cuts gas bills. We want you satisfied.

## Wherever Better Homes Are Built

You will find that Lumber and materials from Foxworth-Galbraith are being used. If any one thing makes a new home a "better home" surely it is the quality of the materials that are used in its construction. That is why discriminating builders and contractors are so careful in their choice of lumber and supplies.

But because they buy the best does not mean that they pay unusually high prices. For it is no secret that the highest quality materials can always be obtained from our yards at prices everyone can afford to pay.

## Society in Canyon

EMIL BREWER, Society Editor—Phone No. 41

### Miss Lalah Whitaker Becomes Bride of Will McCarty at High Noon Today

A wedding of unusual interest to residents of Canyon and the Panhandle took place today at high noon when Mr. Will McCarty of this city took as his bride Miss Lalah Whitaker of Amarillo. The double ring ceremony was performed at the home of her parents, Mr. and Mrs. Less Whitaker, in Amarillo, with the Rev. Mr. Irvin of that city officiating. Only the immediate family and intimate friends of the couple witnessed the ceremony.

Mrs. McCarty selected as her bridal dress, a gown of tea rose crepe with accessories of eggshell. She carried a shower bouquet of pink rosebuds and lilies of the valley. The bride is well known in Canyon and has many friends in the city as she did all of her college work here, graduating from West Texas State Teachers college in the spring of 1930. She is a talented pianist and was a member of many of the college societies, among them the Elphian Literary society.

The groom is the son of Mrs. Annie V. McCarty of this city. He is a graduate of the W. T. training school and received his degree from the college in 1927. While in school he was a member of the Red Man society. He is associated with the McCarty Brothers store here and also has ranch interests in New Mexico.

The couple left immediately following the ceremony for a honeymoon trip to Denver, Colo., and Salt Lake City, Utah. Mrs. McCarty wore a chic going-away suit of skipper's blue with accessories of sand. They will make their home in Big Spring where Mr. McCarty will be sales manager for the Whitaker-McCarty garage.

### ENTERTAINING PARTY AT ASH HOME WEDNESDAY

Washington Day decorations and white flowers were attractive notes in the home of Mrs. William Ash, 1009 Sixth avenue, Wednesday afternoon when Mrs. Ash, Mrs. Ray Campbell and Mrs. Harris M. Cook were joint hostesses to a number of their friends.

Bridge was the popular pastime selected by the hostesses and the table accessories carried out the red, white and blue motif. A delicious chicken mousse was served at the refreshment hour and the plates carried unique favors of miniature hatchets for each of the guests.

Seated for the games were: Mrs. T. M. Moore, Mrs. E. J. Cundiff, Mrs. John Fry, Mrs. M. L. Sadoris, Mrs. Dan K. Usery, Mrs. C. W. Batchelder, Mrs. John S. Humphreys, Mrs. Ray McReynolds, Mrs. Jim Rose, Mrs. T. B. McCarter, Mrs. F. E. Savage, Mrs. Joe Gamble, Mrs. S. L. Ingham, Mrs. D. A. Shirley, Mrs. C. H. Jarrett, Mrs. A. K. Goodman, Mrs. R. A. Terrill, Mrs. T. H. Knighton, Mrs. Bill Black, Mrs. C. M. Presley, Mrs. Felix Neff, Mrs. C. R. Burrow, Mrs. Ross Craig, Mrs. Alfred Bellah, Mrs. Earl Robbins, Mrs. T. S. Montfort, Mrs. T. C. Thompson and Miss Jennie C. Ritchie.

### LEGION AUXILIARY TO HAVE SILVER TEA

A lovely week-end social affair is promised in the Colonial Silver tea to be given by the American Legion Auxiliary at the legion home from 3 to 7 o'clock Saturday afternoon, February 21.

Among those who will appear on the program are: Bill Dawes, Miss Justice, Miss Alice Dawes, Miss Ruth Cross and students, Miss Elizabeth Weter and students, Mrs. Lee Foster, Oscar Croson, Mrs. L. N. George and little Miss Peggy Bishir.

The affair is given as a benefit for the American Legion home. Everyone is cordially invited to attend.

### VALENTINE DECORATIONS FEATURE CLUB PARTY

Pretty Valentine decorations, refreshments and favors featured the entertainment of the 1930 Bridge club Thursday afternoon when Mrs. J. M. Redfern entertained the club at her home, 1005 Fourth avenue.

A delicious salad course was served at the refreshment hour. Those present included: Mrs. L. Angel, Mrs. C. R. Burrow, Mrs. Wallace R. Clark, Mrs. Oscar Gamble, Mrs. C. H. Jarrett, Mrs. D. A. Shirley, Mrs. R. P. Jarrett, Mrs. R. A. Terrill, Mrs. John S. Humphreys, Mrs. S. L. Ingham, Mrs. C. N. Harrison, Mrs. Irb Carruth, Mrs. Jim Blair Redfern and Miss Irene Angel.

### ROBERT H. BERRYHILL CONDUCTS SERVICE

In observance of Ash Wednesday which marked the beginning of Lent, Robert H. Berryhill conducted a vesper service at the Episcopal church Wednesday. Mr. Berryhill is a licensed lay reader in the church.

Rev. Madeira will be here Sunday and will conduct services as usual at 7:30 p. m. Everyone is invited.

### CERTIFICATES OF PERFECTION AWARDED REBEKAHS

Certificates for perfection in the unwritten work of the organization were awarded by Mrs. Pinkie McBride, lodge deputy for the school of instruction, at the regular meeting of the Canyon Rebekah lodge Tuesday evening. This report concluded the official year of Mrs. McBride who will be succeeded by Mrs. Lucy Brown.

Those who received certificates were: Miss Olive Schramm, Mrs. Marie Hair, Mrs. Ida Johnson, Miss Columbia Redfern, Mrs. Gertrude Trowbridge, Mrs. Nannie Myers, Mrs. Lena Cobb, Mrs. Kate Price, Mrs. Winnie Louder, Mrs. Myrtle Stratton, Mrs. Minnie Hendrix, Mrs. Helen Bengt, Mrs. Lucy Brown, Mrs. Ruby Tanner, Mrs. Bertie Strain, Mrs. Maude Waggy, Mrs. Minnie Laughery and Mrs. McBride.

During the business meeting it was decided that captains be appointed who would choose sides to compete against each other in learning the unwritten work. Mrs. Stratton and Mrs. Strain were appointed captains. At the first meeting in March the losing side will entertain the winners.

Mrs. W. E. Lockhart presented an invitation from the American Legion Auxiliary to the lodge for the silver tea which will be held at the legion home Saturday afternoon. It was decided that the members assemble at the lodge hall at 4:30 Saturday afternoon and attend the tea together.

Sympathy was extended Mrs. N. E. McIntire, a member, in the recent loss of her mother, Mrs. D. R. Cass of Hereford.

### REBEKAHS ATTEND LECTURE BY F. A. HAHN IN AMARILLO

Mr. Fred A. Hahn, general commander of the Patriarch Militant, National Canton, spoke to the members of the Amarillo Canton and all Rebekahs and Odd Fellows in the I. O. O. F. hall at Amarillo, Texas, last Monday night, February 16.

General Hahn, who has attended the highest office in the world of Odd Fellowship, talked at length in his slow, pleasing German brogue, on the principles of Odd Fellowship and the joy that comes to one from living and practicing the principles.

Those attending the address from Canyon were as follows: Mrs. Maude Waggy, Mrs. Pinkie McBride, Mrs. Helen Bengt, Mrs. Margaret Cole, Mrs. Winnie Louder, Mrs. Minnie Hendrix, Mrs. Winnie Gibbs, Mrs. Ola Ridgeway, Mrs. Nannie Myers, Mrs. Gertrude Trowbridge, Miss Columbia Redfern and Miss Olive Schramm; Wm. S. Waggy, J. E. Greenfield and D. E. Covington.

### LUCKY 13 CLUB IS ENTERTAINED TUESDAY

Attractive and effective decorations in the George Washington motif were employed in the appointments of the dinner-bridge given Tuesday evening at the home of Mr. and Mrs. O. W. Gano, 2004 Fifth avenue, with Mr. and Mrs. Gano and Mr. and Mrs. Frank Hicks as hosts. The occasion was the monthly meeting of the Lucky 13 Bridge club.

A delicious two-course dinner was served preceding the games. Guests seated for the games were: Mr. and Mrs. Sanford Black, Mr. and Mrs. J. L. Duflot, Mr. and Mrs. Joe Black, Mr. and Mrs. Roscoe Davis, Mr. and Mrs. A. R. Eastwood, Mr. and Mrs. G. A. Farlow, Mr. and Mrs. Mark L. Foster, Mr. and Mrs. Ed Mickle, Mr. and Mrs. Burt Newlin, Mr. and Mrs. Hud Prichard, and Mr. and Mrs. Andy Walsh.

### LEGISLATIVE COMMITTEE IN CHARGE OF PROGRAM

The American Legion Auxiliary met Monday afternoon in their regular monthly session at the Legion home. The legislative committee had charge of the program for the day. Following the business meeting, plans for the silver tea to be given Saturday were discussed.

### B. Y. P. U. ENJOYS VALENTINE PARTY

Group 1 of the Gardener B. Y. P. U. of the Baptist church were entertained Saturday evening with a delightful Valentine party. The house was decorated with valentine designs in places of vantage. The hostesses for the affair were Laura Ferne Brian and Winnie Dee Hicks. After refreshments were served the guests enjoyed drawing numbers for a Valentine contest. The party adjourned at 10:15.

Washington Tallies at Warwick's.

## Simplicity Marks New Spring Modes

THEY MAY BE RADICAL IN DESIGN AND ELABORATE IN DETAIL, BUT PLAIN LINES WILL DOMINATE—PASTEL TOUCHES ARE A NEW NOTE

BY HARRIET

SPRING brings with it thoughts of new coats and hats, first of all. Often, long before spring approaches, the mere sight of a vase of daffodils or pussywillows will have the same effect upon women. Spring and clothes are inevitable companions in thought!

This spring, in spite of the rather radical changes towards old-fashioned elaborate clothes, the majority of things will be plain looking. Not severe, but simple in line, though perhaps elaborate in detail. If you have a figure like a million, then you can find fitted things to set it off. If you are the sports-woman type of person, there are straight line, casual things. If you are in between, the petite person who is too small to wear things greatly fitted, then it will be a pleasure to look at some of the new suits with bolero jackets and ensembles designed for your lines.

Materials and colors seem quite as important as line this spring. New fabrics are especially lovely, many of them ribbed, nubbed, striped, open-work mesh, plaided, flecked and so on. Plain fabrics have the softest of nappy looks. They are semi-sheer crepes in basket weave effects or smooth and fine as broadcloth, only thinner.

Browns are fine for spring this year, running the gamut of those rich cedar browns to the tawny golds and rusts. Greens are pastel colored, in a new tone that has a lot of yellow in it. Consequently, it goes well with yellow blouses, in a chateausse shade. The new note for spring are the pastel touches, dresses, suits, hats, accessories, shoes, bags and so on.

TWO of the new coats are available now, made for Palm Beach wear, both so different in cut, texture, color and styling that they show the varied styles that will promenade in the spring parade.

For the outdoor person, a gray, black and red plaid, almost an invisible plaid, coat is ultra-sporty. It has long, rolled lapels, fastens about the hips and has ample room in its straight, box-cut lines to allow for getting in and out of roadsters, hiking, or golf.

These two new coats, made for Palm Beach wear, will stand out in the spring parade. The sporty coat, left, is a black and red plaid (almost invisible), with long, rolled lapels. Made in a new ribbed material is the fitted coat, right. It fastens neatly about the figure and entirely covers the dress.

This is the type of coat that lends itself to a gay red-brimmed hat, with a dash of white in the way of a side adornment pin, and a scarf that has gray in a lighter tone, red and much white in it.

The second coat is one of the fitted and flared models. It is a new ribbed material, in a loose weave, in tans, beige and deep brown, made with the material used going and coming. This gives an unusual effect of more flare than there really is.

This coat fastens neatly about the figure, has a belt to boot, and a scarf collar that gives it a very dressy look. The sleeves are fairly tight but inclined to flare a little bit below the elbow. It is a coat that entirely covers the dress worn under it and, if the hat matches the coat, almost any toned dress will go nicely with the two of them.

## Churches

### PRESBYTERIAN CHURCH

Sunday school, with departments and classes for all ages, will meet at 9:45 a. m. Class for college students under Dr. Albert Barnett.

Morning worship, with sermon in keeping with Washington's birthday, at 11 o'clock.

Evening worship at 7:30.

The choir meets Wednesdays under the direction of Mrs. H. A. Brown. A cordial invitation to those who sing, and are not active in any other church choir, to join this one. The director is conservatory-trained, and students of music, especially, are invited to avail themselves of her valuable training.

"Let us not neglect the assembling of ourselves together."

W. C. KUNZE, Minister.

### CHRISTIAN ENDEAVOR

The program for the Christian Endeavor society for Sunday, February 22, beginning at 6:30 p. m., will be as follows:

Subject, "Every Christian a Missionary."

Leader, Alleen McCants.

Scripture, Acts 1:6-8.

Prelude: John Hood.

Song, Nos. 132 and 207.

Poem, "Call to Worship."

Song, No. 293.

Prayer, Dorothy Harris.

Introductory talk, Alleen McCants.

Discussions: China, by Eleanor Pierle; Japan, by Mary Ruth Dunning; India, by Oleta Gladney; Tibet, by Bertha Martin; Africa, by Mildred Smith.

Song, No. 260.

Benediction.

### CHURCH OF CHRIST

Remember, the ones getting the most out of Christianity are those putting the most in. Are you getting much out?

Come and study the Word of God with us. It is for mankind and we are to live by it, and must be judged by it.

Don't forget the services Sunday. Hear the gospel presented in truth and love. "Whosoever heareth, let him say come." Bring your friends; where your welcome holds out.

Sunday morning, "Why We Commune Every First Day."

Evening hour, "The Church Described in the Bible."

Come and assist in songs and worship. We welcome you into every service.

JOHN O'DOWD, Local Evangelist.

### FIRST CHURCH OF CHRIST (SCIENTIST)

Fifteenth street and Seventh avenue. Services every Sunday at 11 and Wednesday at 8 p. m., when experiences, remarks and testimonies are given on Christian Science. Sunday school meets at 9:45. All under 20 years of age are invited to attend these classes.

Subject for Sunday, "Mind." A

reading room is maintained in the church from 3 to 5 on Tuesday, Thursdays and Saturdays, excepting holidays, where the bible and authorized Christian Science literature may be read, purchased or borrowed.

The public is cordially invited to attend these classes and to visit the reading room.

### ST. PAUL'S LUTHERAN CHURCH

Five miles east of Canyon.

Lenten services, English, Sunday at 11 a. m.

Sunday school at 10 a. m.

Singing at the church Monday night.

Lutheran hour over the Columbia chain every Thursday at 9 p. m.

H. A. STROEBEL, Pastor.

### BAPTIST CIRCLES

All circles of the Baptist missionary society will meet in the primary room at the church next Tuesday afternoon. Circle 3 will have charge of the program for the day. This is the regular business and missionary meeting of the month.

### CHRISTIAN ENDEAVOR HAS LARGE ATTENDANCE

Christian Endeavor met Sunday at 6:30 p. m. with the boys in charge of the program. The topic discussed was: "What Is Implied in 'The Church as a Family'?" The program given by the boys was splendid. All members of the church board were invited to be the guests of the Christian Endeavor, and they responded very nicely. The total number present at Christian Endeavor was 31.

Next Sunday the girls have charge of the program.

The group is planning a Christian Endeavor paper which will be very good and interesting to all.

### MRS. L. ANGEL HOSTESS TO AS YOU LIKE IT

Mrs. L. Angel was hostess to the members of the As You Like It club at her home, 1301 Third avenue, Thursday afternoon. Three tables were placed for bridge. The Valentine motif was developed in the table accessories and repeated in refreshment plate served at the tea hour.

A lot of women would rather have a neighbor they can talk about than one they can borrow from.

Our idea of an optimist is the man who takes a woman and a seed catalogue at their face value.

A girl may refuse a man because she feels sure he will propose again, but a widow never takes such chances.

American cities are reported to be living beyond their income. In that they have nothing on the most of us.

Singing doesn't always indicate talent. Sometimes it's a hardship for those who have to listen.

Do your shopping in Canyon.

### Lamb County Leads South Plains.

With Lamb county leading with 35,115 bales, cotton ginnings for the fourteen counties of the South Plains area up to and including January 16 were 260,208 bales, a decrease of 55,778 bales under the same period in 1930, the department of commerce report just issued shows. The figures are for the

### 1930 crop and the 1929 crop.

This year's report shows Lamb county with 35,115 bales is first, Dawson with 34,450 bales is second and Lubbock with 33,347 bales is third.

Rank in the 1929 crop was: Lamb first with 48,302 bales; Lubbock second with 45,045 and Dawson third with 32,523.—Littlefield shows. The figures are for the

President J. A. Hill was in Amarillo Wednesday morning attending a meeting of the finance committee of the Panhandle of Texas, Inc. The finance committee is working out the budget for the year's activities, most of which come during the summer and autumn months.

## Umbarger Items

Mr. and Mrs. P. Friemel, Mr. and Mrs. Bedenk and children and Mr. and Mrs. George Grimm spent Sunday in the home of Mr. and Mrs. Fritz Friemel.

Mr. William Erdman and family have sold their property in Umbarger and are moving to Clayton, N. M., where they have purchased a ranch.

Mr. and Mrs. Leon Coleman and baby of Dallas, are visiting at the home of their parents, Mr. and Mrs. J. S. Meadows.

Miss Annie Stocker of Amarillo, was visiting homefolks Monday.

Cards have been received announcing the birth of a little daughter to Mr. and Mrs. Lee Weaver in Dallas. Mrs. Weaver will be remembered as Miss Marie Friemel who formerly lived here.

Mr. and Mrs. Fritz Friemel gave a dance in their home Tuesday night.

On Monday morning Miss Minnie Friemel was married to Mr. William Bauer at St. Mary's church with Rev. J. J. Delje officiating. A dinner was served to a large number of relatives and friends in the home of the bride's parents, Mr. and Mrs. E. J. Friemel. The dance given in honor of the couple in the evening was enjoyed by a large crowd.

## Saves Time for Transport Planes

If this automatic aircraft station, invention of John Jacobs, Los Angeles inventor, is adopted, airplanes will soon be able to load and unload, in a single operation, a cargo of 1500 pounds without landing. Jacobs is depicted showing how the plane prepares to deposit its cargo at one end of the "funnel" while at the other end the outgoing load is shown ready to be picked up.

## Wealthy Scribe

After trying his hand at newspaper publishing, Cornelius Vanderbilt, Jr., above, scion of a wealthy New York family, and mentioned prominently as the man who supplied General Smedley Butler with the information on which he based his accusations against Mussolini, has decided to write a book. He is shown here pounding out the chapters at his new home in Phoenix, Ariz.

## New Mexico's Perfect Volcano.

Mount Capulin, in northwestern Union county, said to be the most perfect inactive volcano in the United States, rises 10,000 feet above sea level.

A perfectly formed crater, 700 feet deep, remains a silent testimony of the age when the mighty mountain belched forth lava evidence of which is found today over a large section of the state.

Mount Capulin was created a national monument by presidential proclamation August 9, 1916. Covering an area of 680 acres, the mountain is really a miniature park.

The mountain is located three miles north of the town of Capulin. Hundreds of tourists get off Santa Fe trains at Capulin, traveling by stage three miles to the crater brink. This wonder of nature may also be reached by U. S. Highway 64, which skirts the foot of the peak, and by U. S. Highway 385, which passes through the town.

Under recommendation of the present custodian, Homer J. Farr, of Capulin, the federal government has constructed, at a cost of several thousand dollars, a beautiful motor highway winding around the mountain to the top.

In 20 minutes one can drive to the top and look down into this ghastly and ghostlike crater from where in time past millions of tons of lava have poured forth to flow over the plains for many miles in almost every direction, spreading like fingers of a giant.—Clayton (N. M.) News.

"Is this a healthy locality hereabout, my good man?"

"Healthy? Why, a couple of years ago they had to kill off two of the oldest people here to get enough seed to start a cemetery." —Brown Jug.

## AFTER THE DEPRESSION

The existing business depression will pass, in the course of time, like all other disasters. Indeed, signs are beginning to appear which indicate that it is already leaving us, slowly but surely. But so far no one seems to have thought very much about the problems we shall have when the depression is at last over.

In that connection, a recent report from the Russell Sage Foundation presents some suggestions of considerable importance.

It points out, in the first place, that the end of the depression will find us in a reconstruction period which will present a number of difficult problems. As John M. Glenn, general director of the Russell Sage Foundation, writes:

"While no one can tell how long the present depression will continue we know from rather full records of previous unemployment periods that the ill effects of the present situation on individuals and families will be felt long after the business situation is improved. The sooner a community begins to organize to counteract these ill effects, the more speedy will be its recovery."

And Joanna C. Colcord, who wrote the Foundation's report, adds: "Long after factory wheels are again turning, and to the average citizen it seems that things are back to normal, the social agencies will be trying to put together the pieces of human lives which have been shattered by the disaster. People with health of body and mind impaired, people whose courage and independence have been undermined by people at odds with society, broken and scattered family groups, will be long as a heavy burden resulting from the period of unemployment. The need of the social agencies for increased public support will be prolonged far past the period of acute distress. An emergency committee should make its plans with this fact well in mind."

The Foundation then recommends that employment committees continue their studies of unemployment after the depression ends. For we have a good deal of unemployment in this country even in prosperous times—seasonal, technological and otherwise—and we have never yet made any attempt to learn its causes or devise a cure for it.

That, indeed, is the crux of the matter. We have had many periodic business depressions in America, each one bringing an enormous amount of suffering in its train. But we have never learned anything from them. In good times we refuse to get ready for them—and they catch us, as this last one did, utterly unprepared.

## CONQUERORS

A great merchant of my acquaintance, who is a friend of Gene Tunney, told me what occurred after the final Dempsey-Tunney fight.

Gene, who never loved the crowds or was greatly loved by them, wanted to get away immediately. His idea of the way to spend the evening of victory was to hide himself with a few companions in a hotel bedroom.

His friend said: "Gene, you could have done that if you had lost. But you won. You are champion of the world. Whether you like it or not you must pay the price of the championship. And part of the price is to be seen by the crowd."

In telling the story the merchant enlarged upon the theme.

"When I became manager of one of our stores I had to do a lot of things I did not like to do," he said. "When I became head of all the stores my unpleasant duties increased. Now I get to the office before nine o'clock every morning, and a large part of my day is consumed in duties that are more or less distasteful. The only man who can do as he pleases is the failure. Every step up that you take means that you belong less to yourself and more to other people."

As he spoke I thought of some examples that have come under my own observation.

The partners of Morgan & Co., are the princes of the modern business world. If you stand outside their building on almost any winter's evening you will see the lights burning in at least a part of the private offices. The lower floor may be dark. The clerks and accountants have gone home. But almost always some of the partners are still on the job.

I spent a day with Coolidge while he was still President. He was supposed to be on vacation. He fished a little in the morning, but it was the least relaxing job of fishing that I have ever witnessed. A secret service man stood at his elbow and another kept watch

from behind the bushes on the bank.

Once for a week, I traveled in a private car with the president of a great corporation. Every morning we left the car at eight o'clock and called on dealers in their stores. We lunched with a group of them at noon, and had another group with us until midnight. At midnight we went to bed to wake up the next morning in another city and do the same thing over again.

It was a tougher week than any laborer ever spent.

The big jobs look attractive from a distance, but when you get closer to them you find a large price tag pinned on each one.

Some of us who have been close enough to read the figures on the tags find it quite easy to reconcile ourselves to remaining quietly and contentedly below.

## New Variety of Poultry

American poultrymen who attended the Fourth World Poultry Congress in London, England, last summer, were impressed with several comparatively new breeds of poultry which are presented to the commercial poultry industry as breeds of economic value and significance. One of the most interesting and probably one of the most valuable of these new breeds is the Welsummer, which has been developed during recent years in the heart of the intensive poultry raising districts of Holland, centered near the little village of Welsum.

It is probable that the Brown Leghorn, the Rhode Island Red, and the Barnevelder breeds have been used in developing the Welsummer. The finished product has the beautiful partridge plumage of the Brown Leghorn, much of the shape, size and type of the Rhode Island Red—including its yellow skin and red earlobe—and the unique and valuable characteristic dark-brown-shell egg of the Barnevelder. The breed appears to have inherited egg-production capacity from its Leghorn ancestors, general-purpose type and meat

tendencies from the Rhode Island Red and Barnevelder, and the extreme dark brown shell from the Barnevelder. This dark shell seems to be very popular on European markets and will no doubt find considerable popularity on certain of the American markets which are especially interested in brown eggs.—Prof. W. C. Thompson, Poultry Husbandman, in the "New Jersey Agriculture."

Each day finds more land with rows run on the water level and lines laid off for terracing. If the people who are interested in this work keep increasing as rapidly in the future as they have in the past it will be only a few years until practically all the land will be laid off to keep the water out of the lakes and on the points where it is needed.—W. T. Magee, Hockley County Agent.

# THE EAGLE'S TALE

VOLUME NO. 5

CANYON, TEXAS, FEBRUARY 19, 1931.

NUMBER 21

CACTUS CAL

I haven't got much to say only I'm boostin' the seniors and lookin' fer a medal.

Here's a little piece of a poem what one of my friends rit:

**Pa's a Sailor**  
"Onct pa was caught  
In a pow'ful draught  
Down off a the West Indies.  
The sails they popped,  
An' the sails they flopped,  
An' the Wind was SOME breeze.

"The mate clum the mast.  
This act was his last,  
Fer he fell in the billowy sea.  
The cap'n he cursed,  
An' did all he durst,  
Then along come a wave from the sea."

There's more, but I know that's too much already.

Another way to learn to control your temper is to get married to some fine woman and try to stay married to her.

## "Round Table" Enjoys Talks Of Sponsor

The Round Table Club, which is one division of the junior home room, and whose sponsor is now Coach Brady, have recently elected new officers for the remainder of the school term. They are as follows: President, Willard Middleton; vice president Ruth Cox; and secretary, Viva Bell Cox. A program committee was appointed and they are having some really interesting programs. Much more interest and ginger is being shown this semester than last.

We consider ourselves fortunate in having Coach as a member of our club since he has told us much about his trips to Yellowstone Park, Niagara Falls, and other places of interest in Utah, Colorado, and Wyoming. We already had an ambition to see these places but after having heard his talks we learned that there were so many beautiful things to see that we now have a greater desire to see them.

We discovered recently that we have some real musicians in our club and it is our intention to have them on our programs frequently in the near future.

We have a basketball team too. Although they have not yet been seen in action they have the characteristics of great ball players. They are fast and have unerring eyes for the basket. We are expecting great things of them in the near future with Bill Strain as the coach.

Your hat may cover a lot of brains, but it is too small to top them all. There are others scattered around this town.

Dents in the back of a car don't necessarily indicate that the owner is a careful driver. He may be a careless backer.

And another thing, you never can tell how much the average man can remember until he is called as a witness.

Money never seems so important until you run out.

## C. H. S. Starts Tennis Courts And Training

Canyon high school is paying more attention to tennis this year than ever before. The work of the Robinson brothers and Jack Jackson showed the school that with trained men C. H. S. could show up well in the "ace of sports."

Two courts are in progress now and the school wishes to take this means of thanking the Texas Utilities company for the donation of poles and the city for the scraping of the ground.

## Intramural Basketball Is Started Monday

Intramural basketball started Monday in C. H. S. The winner's name will be published in the next edition of the Eagle's Tale.

Every year the classes play each other to see who gets the medals given by the school to the members of the winning team.

The teams and their coaches are:

Faculty—Brady.  
Seniors—Wiggins.  
Juniors—Taylor.  
Sophomores—Pearson.  
Freshmen—Cabe.  
Seventh Grade—Tucker.

Wednesday, Feb. 25, the two teams having the highest percentages will play for the championship.

Admission 5c for each session.

## The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

### EDITORIAL

Are you boosting the athletics of Canyon High as much as you should? Do you realize that Coach Brady came very near making a championship team out of a bunch of football greenhorns?

Let's have more backing of this bunch. Canyon High is a better school than most of those in the Panhandle, and for that reason it ought to be backed.

This lack of "backing" has caused a financial "closeness" of the athletic fund. Let's remedy it.

## Mr. S. H. Condon Gives Interesting Talk in Assembly

Last Tuesday the boys heard a very interesting talk from Mr. S. H. Condon of the College, on the subject of "Thinking."

He told of Walter Reed, the famous doctor who thought of the way to stop yellow fever in Panama. Mezzini, of Italy, the man who was probably responsible for the unification of Italy, was once put in jail because he "thought more and said less."

Mr. Condon said that the boys who later will be responsible citizens of the United States, to think their way into the future. Today we are led by the thinkers and let them do our thinking for us. Less than one-per cent of the present American people really think.

The boys enjoyed this talk and sincerely hope that he will give the school some more of his time and speak in chapel in order that the girls may also receive the benefits of his knowledge.

It seems unfortunate that the only fellow who knows how big things should be done is holding down a small job.

A fashion note says women's clothes will be worn longer for a season or two. For that matter, so will men's.

## C. H. S. Will Debate With Nearby Schools

Before the Interscholastic League debates scheduled in April, there will be several debates between Canyon High and nearby schools.

The boys will go to Hereford March 5 and the girls March 19. The boys debate Amarillo in Canyon, March 6, and the girls will debate in Amarillo March 20.

Other debates will be scheduled with Tulia and Panhandle. The girls who are coming out

are Bib Jameson, Katye B. Lowe, Katherine Robinson, Robbye Lee Foster and Maxine Wallace.

The boys are George Gaede, Vincent Lockhart, Eugene Brian, Geo. Schmitz, Hosea Foster, Ogden Stroud, Clark Ash and Dale Bowman.

The only way some fathers can get a daughter off of their hands is by putting her husband on his feet.

## KENNEDY PLAYERS TO BE HERE MONDAY NIGHT IN "OLD NOBODY," AS FIRST LYCEUM ATTRACTION

Next Monday evening at 8:15 o'clock the first lyceum number of this quarter will be presented here, "Old Nobody," a comedy play, being given by the Charles Rann Kennedy players, of world fame.

"Old Nobody" is a detective play, wherein the audience shares in the discovery both of crime and criminal. It is a comedy of thrills and mystery, involving the delinquencies of two gypsy women, and others, as the audience and Old Nobody may decide.

The Kennedy Players have been proclaimed the greatest in the world of drama. Charles Rann Kennedy is a dramatist, actor, and producer. He has broken new dramatic ground, founded a new technique. The plays presented by the players, including "Old Nobody" are written by him. His collected works are published by the University of Chicago Press in two volumes.

Edith Wynne Matthison, (Mrs. Charles Rann Kennedy) is regarded in both Europe and America as one of the consummate artists of the day. Equally gifted in tragedy and comedy, her work is characterized by exquisite psychological truth and subtlety, emotional mastery and matchless form. Her voice and diction are cited everywhere as the model of perfect English music. Her art has ranged the centuries, taking in the drama of ancient Greece, the mediaeval mysteries and moralities, Shakespeare, old comedy and the best moderns. Her unswerving devotion to the very highest in art, her refusal ever to appear in anything else, have made for her a unique place in the spiritual and creative influences of the present time.

Margaret Gage, the other member of the players, is a gifted young artist of rare distinction and endowment. A graduate of the Bennett School, trained by the Kennedys, her achievements have been uncommon.

The Kennedys are English-born; Miss Gage, American. The object of this little company of three is, on the one hand, educational; on the other, wholesome entertainment. Therewith is joined a protest against the existing commercial theater; and the hope of blazing a new way out for players, playwrights, and audiences that take life generously.

Students will be admitted to this attraction Monday night on presentation of their student-activity tickets. The door price will be \$1.50.

Texas has four towns nearly or quite 200 years old—San Antonio 1718, Goliad 1739, Laredo 1755 and Nacogdoches 1779.

Texas is a relatively level country, but has more than 100 mountain peaks of 5,000 feet or over and four of more than 8,000 feet. Guadalupe, 9,500 feet, is the highest.

Texas has had eight capitals—Washington-on-Brazos, Harrisburg, Galveston, Velasco, Quintana, Columbia, Houston and Austin, three of them being temporary seats of government during the Santa Anna invasion.

Texas leads the nation in rural population with 3,425,367 inhabitants classified as rural. Pennsylvania, 400,000 behind, holds second place.

### CHRISTIAN SCIENCE LECTURE GIVEN AT OLYMPIC SUNDAY

A large number of people were present Sunday night to hear a Christian Science lecture on the subject of "Christian Science: The Science of Perfection," given by Dr. Hendrik Jan de Lange, C. S. of The Hague, Holland, at the Olympic Theatre. Dr. de Lange is a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The following is a report of the lecture: Jesus' stirring admonition to mankind, "Be ye therefore perfect, even as your Father which is in heaven is perfect," sounded startling and impossible of fulfillment to a world believing in an anthropomorphic God and an imperfect man. The advent of Christian Science has brought light in this darkness of finite human thought by starting out from God's inevitable perfection, eternity, and infinitude as divine Principle, and the necessary perfection and spirituality of His divine expression, or man, created after God's image and likeness. (Gen. 1:26.)

For the Christian Scientist, the Master's command, "Be ye... perfect," is consequently an exhortation, not a startling impossibility. The Christian Scientist feels an impelling inspiration to gain a more perfect and spiritual understanding of God, man, and the universe, and thereby the divine reality is gradually revealed and sin, sickness, and ultimately death begin to disappear from his consciousness and consequently from his life. Christian Science is affording this higher and essential education of how to think divinely and spiritually, and thereby to be saved. Jesus showed the way and proved his method efficacious by his wonderful works. He knew that it was the spiritual and true understanding, or Christ-understanding, is not dependent upon time or place, neither is it restricted.

It was a pure and noble New England woman, Mary Eddy Baker, who revealed it renewedly to the present as the Christ-Science or Christian Science. When all material means had failed to restore her from the effects of an accident considered fatal, she turned to her Bible and received a new light upon the Scriptures which led her to this most important of all discoveries. She fully set forth in the Christian Science textbook, Science and Health with Key to Scriptures. Moreover, she wisely safeguarded the permanency of the Christian Science movement, independent of her presence, by founding The Mother Church, The First Church of Christ, Scientist, Boston, Massachusetts, and by writing the Church Manual, where by it became possible to form branch churches. Mrs. Eddy's spirituality revealed to her the prayer of understanding, not belief. The sick are healed and sinners saved by the realization of the divine and unalterable perfection of God, and man in His image and likeness. This prayer must also lead to moral regeneration in order to be really Christianly scientific. In this way, the salvation of the individual will inevitably lead to world salvation, since the world consists of individuals.

Christian Science teaches that for every individual and consequently for every nation and every race there are plenty and more than plenty of the things which make existence desirable and enjoyable, if these things are but conceived of spiritually enough. It teaches that fear of lack and limitation is the great disturbing factor in the world. Christian Science is giving the necessary spiritual understanding to overcome this fear and thereby to find spiritual satisfaction and abundance. Spiritual satisfaction can be attained and maintained by everybody. "Be ye... perfect" means satisfaction to everyone here present and in the world at large. It means satisfaction in every detail of existence through the understanding and demonstration of the practical spiritual truth taught in the Science of perfection Christian Science.—Contributed.

What we need most in this country is some way to persuade the rich to spend more money and the poor to save it.

The good old days were those when the whaling industry thrived in the wooded as much as it did on the ocean.

Help Keep Canyon Clean!

## Vigorous Newspaper Advertising Would End Wheat Surplus

BY DAVID M. WARREN

A vigorous nation-wide newspaper advertising campaign would do a lot to end the ills of the wheat industry. A meeting of several hundred farmers, grain dealers and business men was held in Amarillo recently and the meeting endorsed a plan to reduce acreage by 40 percent.

People have gone off on eating fads. Women will eat potatoes, but will not eat wheat. Consider the millions of homes in which the consumption of bread and other wheat products has declined in recent years. It was pointed out at the Amarillo meeting that wheat consumption in the United States had declined one bushel per person per year.

This is an age in which the advertised product gets the consumer's dollar. Nearly everybody has money to pay five to ten cents each for apples and oranges, ten to twenty cents each for grapefruit and other products.

And the wheat farmer representing one of the biggest businesses in the United States, is practically broke. The public is paying

generously for fruit because a well planned advertising campaign has kept up the demand—therefore the cost gives a decent return to the growers. But, it was not the government that saved the fruit grower. He did it himself by making a payment to an advertising fund based on every box of fruit.

The business of raising wheat can be changed into a profitable one by the end of 1931 if a comprehensive advertising campaign that reaches into the millions of American homes is worked out. Wheat is about a dollar a bushel cheaper than it was a year ago. It may be necessary to consider assessment of 5 to 15 cents a bushel for an advertising campaign, but the results will be worth it. This cost possibly could be deducted at the time the wheat is handled by the mill or the elevator.

Some will say that the poor farmer will have to pay for it. He certainly is paying for the lack of a consuming market today. With the daily and weekly newspapers carrying messages urging people to eat wheat there is no doubt what the entire surplus can be consumed in a relatively short time.

The farm board has spent millions of dollars. If the government

had taken ten to twenty million dollars of this sum and had invested it in newspaper advertising, much of the worry about the wheat surplus would have been over by now.

Also, it must be realized that the mills, cereal manufacturers, bakeries, elevators and allied businesses would increase their advertising expenditures to help the United States absorb the surplus.

It is the writers belief that the average person does not realize what advertising would do along this line. It would take a sick industry and make it profitable.

There can be no greater folly than to talk about going back to the "good old days" in wheat production. There would be no wheat surplus if people were told about wheat products thru the printed word.

Already there is rumbling over the talk of the Amarillo 40 percent wheat reduction plan. Farmers have thousands of dollars tied up in farm machinery. They say that it requires several hundred acres to make this machinery profitable; they declare that the reduction should not be made on the small farmer; rather it should affect the "city farmer" with his thousands of acres.

Millions spent in advertising will

cause millions of bushels of wheat to be consumed. We want more farms in the Panhandle; retarding the acreage will mean that breaking of many ranches into farms will be delayed for years.

Advertising will move the surplus; otherwise wheat will have to go on "pro-ration"—take your choice.

The fellow who stops to tie his shoestrings in the race of life generally gets left behind.

## Wayside Items.

Cloudy and threatening rain for some days.

Tuesday morning a light rain is falling with snow occasionally at the same time. A good season would be of great benefit to the small grain crop.

Fifty at Sunday school last Sunday. Pretty good for the inclement weather. We are proud of our Sunday school leader and others who make it possible for Sunday school whether it rains or the sun shines.

Tom Casey and Jim Howard left Saturday for Boulder Dam, Colorado, on a sightseeing hike.

Loyd Howard who has a job near Amarillo, left Sunday.

W. R. Franklin and family, with W. J. Sluder and wife, were callers at Mr. Joe Smith's Sunday afternoon.

Mr. and Mrs. Smith and four children, Joe, Sarah Frances, Vinson and J. B., recently moved from Floyd county. They bought two and a half sections of the J. W. McCrery place. We are glad to know they are pleased with our school, church and Sunday school advantages.

A number of young people attended a "42" party at the W. H. Hamblen home Saturday night. Five girl friends of Osce Lou Hamblen spent the latter part of the night as a slumber party. Irene Wesley, Iva Lee James, Frances Smith, Elva Gillham and Cornelia Knox and Osce Lou enjoyed the party.

Mrs. W. C. McGeehee had a serious time the past week with a stiff neck. For some days she suffered quite a lot. There is some improvement but not well yet.

Mrs. J. E. McGeehee entertained three classes of Sunday school pupils Saturday afternoon. Mrs. Lane's, Mrs. Harrell's and Mrs. Merle McGeehee's little folks had a fine time exchanging valentines and playing games.

George Hancock and family of Pampa visited Wayside relatives Saturday night and Sunday. Aline McGeehee accompanied them as far as Canyon Sunday afternoon on their return.

Mrs. Annie Wesley is slowly improving and is able to be up all the time now.

W. D. McGeehee has been on the sick list but is improving.

## THE GREAT AMERICAN HOME

### Zita Breezes

Mr. and Mrs. O. T. Roddy and family visited friends in Amarillo, Sunday.

Mr. and Mrs. Boyd Elliott and little son, Dickie, visited with Mrs. E. M. Elliott, Sunday.

We are very sorry to hear of the death of Mrs. H. B. Hale's father. She left for Kentucky but before

reaching there he died. She will return home in a short while.

The school children enjoyed a Valentine box at the school house Friday afternoon.

Mrs. Paul Matthews and daughter visited Mrs. Emma Gruner, Sunday.

Mr. and Mrs. Clarence Burchman visited at the C. C. Stewart home Monday evening.

Marion King spent the week-end with his cousins, Lee and Tom Roddy.

### Sunny Hill School

Rev. D. D. Sumerall will fill his appointment here next Sunday afternoon.

The Sunny Hill singing class will meet at the home of Mrs. H. E. Knox Friday evening. These meetings are not for members alone. Everyone is welcome.

A number of the people of this community attended the Plateau singing convention at Canyon Sunday. The convention voted to meet at the Sunny Hill school house on the third Sunday of August. We shall be glad to have the convention here and we extend a hearty welcome to all who may be with us at that time.

The school plans to observe Arbor Day Friday afternoon with an outdoor program. Patrons are invited to attend. The pupils are now preparing the holes for the trees. Each child has one or more trees of his or her own to care for.

Clarence Dubbs and Skip Ganiel were visitors in the H. H. Groom home Saturday night.

Mr. and Mrs. Wheeler Knox and baby, accompanied by her brother, Harry, visited here last week in the parental home of Mr. Knox.

Mr. and Mrs. A. C. Neff accompanied by Bob Goodnight, were visitors in Amarillo, Saturday.

Alnis and J. T. Sykes visited Everett Kaufman, Sunday.

Mr. and Mrs. Bill Thomas of Happy, were visitors in the home of Mrs. H. E. Knox, Monday night.

Mr. and Mrs. H. F. Ratjen and family motored to Lockney, Saturday and returned here Sunday.

Mr. and Mrs. P. D. Sherwood and daughter visited in the home of Amos Ratjen, Monday evening.

### URGES HOME GARDENS

AUSTIN—Radishes for more rapid recovery from business reverses; green beans when you can't afford the store variety; in short, a garden to lessen the drain on len pocketbooks—that is the advice offered by J. E. McDonald, State Commissioner of Agriculture, not only to farmers but to townspeople as well.

Investment of a few cents in seed a few hours effort in cultivation, and a few weeks of Texas sunshine should return huge dividends in health and food for the table.

Farmers, particularly, with little prospect for improved market conditions for cotton, or wheat should concentrate on raising their own food-stuffs this year, McDonald said, including not only vegetables, but poultry, hogs and other eatables.

The chief objection to the school of experience is that it thinks up a new course every time you are ready to graduate.

If there is one hard job in this world it is trying to look dignified while climbing into the rumble seat of an auto.

### Tierra Blanca Echoes

The pupils of the Tierra Blanca school were given a valentine party and had their box Friday afternoon, February 13, at the home of Mrs. Touchet.

After playing various games and contests a delicious refreshment course was served featuring the valentine motif.

Mr. Robin Byers of Lockney is spending a few days with his brother, Lonnie Byers.

Miss Jean Machen spent the week-end with her sister, Mrs. Prichard.

Mr. and Mrs. J. W. Hastings had friends visiting them from Clarendon and Amarillo, Sunday.

Misses Berda Ann Hastings and Hazel Roper were week-end guests of Mrs. Williams and Touchet.

Mr. and Mrs. Jewel Jones have returned from a visit in Oklahoma City.

We are glad to welcome Mrs. Ruel Wood who has returned from the Plainview sanitarium.

Miss Berda Ann Hastings was hostess to her Sunday school class Tuesday evening at the home of Mr. and Mrs. J. W. Hastings. A delightful evening was spent in playing games. Gifts were presented to Delbert Jones and Madison Ruth Ardt, honoring their birthdays.

### OVERPRODUCTION ON THE FARM

In some parts of the country farmers have taken seriously the warning of the Federal Farm Board against overproduction. In other parts they have paid no attention to it, and have sowed more winter wheat than last year.

It will take a long time, before farmers are so well organized and information about crop conditions and production so well understood by all of them, that they will not plant too much. But it is true as anything ever said from a pulpit that the principal trouble with agriculture, insofar as agriculture can do anything about it, is that too many farmers are growing too much of the same commodity, not only in America but all over the world.

Chairman Legge of the Farm Board pointed out the other day that Nebraska had cut down the winter wheat acreage twelve per cent. If all of the other wheat-growing regions did the same thing, and kept their spring sowing down in the same proportion, the result would certainly be vastly larger returns for every wheat grower. But every farmer who plants as much to wheat this year as he did last year is reducing his own income and causing all of the other wheat growers to lose also. Nobody makes any money on wheat when it is as low as it has been for the past year; everybody would make money on it if there were only half as much of it grown and in the market.

Missouri and Arkansas have some excuse for sowing more winter wheat than a year ago. The drought hit those states harder than it did most of the rest of the wheat country, and much of the winter wheat sown there is for pasturage for livestock. Wheat feeding to cattle and hogs has proved a very successful and profitable way of using up the surplus. But all of the efforts of the Government to stabilize the production of the staple crops and to organize their marketing on an or-

### DEATH RATE IS LOWER

For the first time since records have been kept, the death rate in 16 principal cities of the country fell below 12 per 1,000 of population during 1930, according to the Census Bureau. The rate for the year was 11.9.

The best health year previously experienced were 1921 and 1927 with 12 and 12.3 per 1,000 respectively. The highest rate recorded was 19.6 in 1918, when influenza swept the country. In the last 10 years the highest rate was 13.2 in 1926. The city death rates are slightly higher than those for the entire country, but less than 1 per 1,000 higher.

The United States average of

approximately 12 deaths per 1,000 population is about the same as that of England, Germany, Sweden and Switzerland; a small fraction higher than that of Norway and the Netherlands, but lower than the rest of Europe. The rate in Soviet Russia is the highest of any country for which statistics are available, being about 25 per 1,000, or more than twice as great as that of the United States.

Tinting the finger nails is nothing new. Many citizens can remember when all girls had blue nails on Tuesday—from the bluing in the Monday wash.

Farming pays in Randall county.

## New Texas Almanac Just Off Press Is Complete in Details

The Texas Almanac and State Industrial Guide, edition of 1931, which has just been issued by The Dallas Morning News, might more properly be called an encyclopedia of Texas. Nearly everything one might wish to know about Texas is found in this new volume. Among the subjects covered in articles and statistics are agriculture and live-

## RUPTURE EXPERT HERE

C. F. Redlich, Minneapolis, Minn. will demonstrate without charge his unequalled method in Amarillo, Saturday, Feb. 21, at the Herring Hotel from 10 A. M. to 4 P. M.

Mr. C. F. Redlich says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

Stomach troubles, backache and constipation nearly always a consequence of rupture, promptly disappear.

Bring your children. According to statistics 95 per cent recover by our method.

NOTICE: All whom we have treated during the past ten years are invited to come in for a free inspection.

### HOME OFFICE:

535 Boston Block, Minneapolis, Minn. 47p2

## Is Your Face Covered With Pimples?

Wichita, Falls, Texas — "My son was in poor health when he was about twenty years of age. His blood became thin and he was pale. He was also troubled with his stomach and his face broke out with pimples. Finally, I

decided to have him try Dr. Pierce's Golden Medical Discovery. By the time he had taken a few bottles of the 'Discovery' he was completely relieved of all these troubles, his blood was healthy, and he had no more stomach trouble."—Mrs. Beulah Singleton, 1101 18th St. Tablets or liquid. Druggists. Write to Dr. Pierce's Clinic in Buffalo, N. Y., if you desire free advice, enclosing wrapper from medicine.

stock raising, manufacturing, commerce, finance, minerals, railroads, highways and automobiles, aviation, foreign commerce, geography and physiography, forests and lumber production, irrigation and reclamation, wild animal, bird and fish resources, population, history, government, education and churches and religious organizations.

New census figures are given. There are several hundred articles and statistical tables containing several hundred thousand facts about Texas. There is a full text of the state constitution, with explanation of each of the 51 amendments that have been ratified since adoption of the constitution in 1876. Constitution of the United States is included also. A folded sheet carries on one side a political and railroad map and on the other side a highway map. There are about 8,000 names and addresses of federal and state officials, county and district officials, mayors, school superintendents, chamber of commerce secretaries, writers, painters, musicians and others.

Questions such as the following can be answered from the Texas Almanac: When was Fort Phantom established? Where? What is the highest mountain and what is the deepest canyon in Texas? What was the acreage, production and value of broom corn in Texas in 1930? How many airplane landing fields are there in Texas? What railroad projects are to be under construction in 1931? How many kinds of native oak trees are found in Texas? What was the 1930 census population of Winters, Texas?

The new Texas Almanac contains an article about each of the 254 counties, also brief articles about the more important cities and towns. While the primary purpose of the Texas Almanac is to give information about Texas, certain other information of general interest is given. The new edition has 384 pages, is printed on book paper and is illustrated with a number of half tones. The price is 60c a copy.

The 1931 Texas Almanac is now on sale at the Warwick Printing Company. It may be obtained in either the paper binding or the deluxe binding.

A woman is seldom called an old maid until she begins to act like one.

## Bufs Trim Sul Ross Twice For Western Title

Burton's Buffaloes of West Texas performed their usual feats Friday and Saturday nights by taking the Lobos from Sul Ross into camp by the scores of 42-20 and 59-23.

The games concluded the conference schedule for 1931 and the win of Friday night definitely decided who would play the winner of the eastern division of the T. I. A. A. for the championship.

In the game of Friday night lanky Joe Fortenberry took high-point honors with 14. On Saturday night "Slim" Comer scored more points than the entire Sul Ross team, a total of 27 to take high honors of the game and jump into the lead of the conference in scoring honors.

The two games proved to be of little interest. The Buffaloes moved forward with comparative ease and soon after the first game began Friday evening the rest of the affair was never in doubt. Spectacular defense work held the Sul Ross scores low in the first part of each game. Only one field goal was scored by the Lobos in the first half both evenings.

Shaddix, speedy forward of Alpine college, who has been burning things up and leading the conference for several weeks, slipped into obscurity and was practically covered by the combination of Clark and Brown. He scored only 11 points in the two games.

The conference season was ended in perfect style for the Herd with eight wins out of the same number of starts. Only one game endangered the supremacy of the Buffaloes in the western division and that was the first affair at Brownwood and the first conference game with the Hill Billies when the Bufs emerged victors by a one-point margin.

## Os Eckhardt To See Service In Major League

When the spring training for professional baseball opens within a few days, Os Eckhardt, the "Yorktown Flash," will get another trial at big time company. This time he will see service under the Detroit Tiger flag.

Eckhardt, who formerly coached at the college and who played with the Amarillo team in the Western league several seasons ago, led the Texas league in hitting during 1930.

He has played professional baseball on the Pacific coast and at one time was given a trial with the Cleveland Indians in the American league.

### CORRECTION NOTICE

An error on the part of the News' reporter occurred in the item regarding the water rates of the city, for the coming summer months, which appeared in the issue of last week.

The statement was made that the people who wanted to take advantage of the water rate for the full eight months must sign the irrigation contracts before February 23.

This is in error. The meter readings for special rates will begin on February 23 and the contracts may be signed by March 15. All contracts, regardless of the length of time the consumer desires to take advantage of the low rates, must be signed not later than March 15.

If Mr. Coolidge really runs in 1932, campaign earnings may be investigated instead of expenses.

One fellow who can say business is on the rocks, and smile is the diamond salesman.

A North Carolina paper records that a sailor "was killed by coming into contact with a live wife." Possibly a linotype's error, yet such things have happened.

A diplomat is a man who says nothing when his wife puts 25 candles on her birthday cake when he knows she should be putting on 40.

## Highway Men

(Continued from page one)

next December, and that it could well be placed in every school library in Texas.

It is planned to print 50,000 of the books the first run, then make a second run if necessary to take care of the demands. It was pointed out that through this co-operative plan Randall county will be getting a quality of advertising which would be impossible for any local organization to give because of the expense involved.

The Canyon Chamber of Commerce was a liberal supporter of the Panhandle of Texas, Inc., last year when it operated under the name of the Panhandle-Plains, Inc., and W. H. Upchurch had charge of the arrangement of the exhibit which caused much comment throughout the entire middle west.

At the meeting of the Chamber of Commerce directors on Tuesday night, Oscar Hunt was appointed chairman of the air mail committee. A meeting of the South Plains Airway association will be held in Lubbock on March 10, in an effort to secure an air mail line from Amarillo to Big Spring. At this meeting data will be presented from each postoffice between the two places, showing the amount of air mail sent and received. Postmaster Hunt will compile this information for Canyon.

Senator J. W. Reid, Prof. T. M. Moore and J. D. Gamble were appointed to work for Randall county in the promotion of the bill to secure a wheat experiment station for the Panhandle. It was brought out that the average production of wheat in the Panhandle during the past five years has been 30,000,000 bushels, and that this is the largest wheat area in the United States without an experiment station, the nearest one being at Manhattan, Kan., a distance of 452 miles away.

A committee which has been working on plans for better rural mail facilities in Randall county reported on that project. Secretary L. N. George and Carl Anderson have been over a proposed route, and steps are being taken to procure the new service as soon as possible.

A committee composed of C. L. Thompson, J. Roy Moses and Allen Farlow is working out a new trades day plan which it is believed will be more satisfactory than the present plan. The next trades day will be carried out under the old plan, however, and the committee ideas will be presented next week.

President Byrle Elliston announced at the meeting that a special meeting would be called soon to work out the details of a plan for a county-wide membership drive for the Chamber of Commerce. With a county-wide advertising plan worked out, and with the success which the seed distribution is meeting, it is believed that the value of commercial organization is more evident to people than ever before. Randall county, because of its many interests, always has a large program to carry out.

## TWO CASES OF TYPHOID ARE REPORTED IN CITY

Two cases of typhoid fever were reported to the city health officer last week. These are the first cases to have occurred in Canyon in about ten years.

Rosita, 6, and James Clark, 5, children of Mr. and Mrs. J. E. Clark, were taken ill early last week. Both are progressing satisfactorily, according to Dr. H. G. Grainger, attending physician.

No cause for alarm is felt as the disease was apparently contracted in another town and proper precautions have been instituted to prevent its spread.

In these days a primitive wilderness is any stretch of five miles or more where you can't buy any gasoline.

Farming pays in Randall county.

## Leaves Society For Arctic Trip

With two polar expeditions already to her credit, Miss Louise A. Boyd, above, San Francisco society and clubwoman, is making plans to set out again this summer into the Arctic wastes. The trip will be sponsored by the National Geographic Society and a group of scientists will accompany her.

## County to Get

(Continued from first page)

division is a part of the declared intention of the state department to expend all available money for the highway construction in this division as quickly as possible.

The new additions bring the total number of resident engineers in the division to six. The others are A. E. Dyatt, Perryton; M. E. Savage, Canadian; M. L. Grady, Shamrock, and Oscar Seward at Amarillo.

Both the new engineers will become active immediately as Gray and Randall counties have construction work up for contract at the February term of the commission. Besides that, a county-wide bond election which appears certain of passage, is impending in Gray county.

With the recent appointment of W. J. Van London as construction engineer with headquarters in Amarillo, the new engineers will bring the total of state highway organizations in the Panhandle to eight, six resident engineers, the division engineer and the construction engineers.

Bids for the work on the highway west from Canyon are asked for by the state highway department in an advertisement published in this week's issue of the News. It is stated that the bids will be opened by the highway commission at 9 o'clock February 28.

## NOTICE TO CONTRACTORS

For State Road and Bridge Construction

Sealed proposals addressed to the State Highway Engineer of Texas, for the improvement of that part of State Highway No. 33, covered by P. A. P. No. 174-Reop. Sec. A in Randall County, will be received at the office of the State Highway Engineer at Austin, Texas, until 9 o'clock, a. m., February 28, 1931, and then publicly opened and read.

Work consists of constructing grading and drainage structures from Canyon to the Deaf Smith County line, a distance of 15,311 miles.

Detailed plans and specifications of the work may be seen for examination and information may be obtained at the office of P. S. Bailey, Division Engineer, at Canyon, Texas, and at the office of the State Highway Department, State Office Building, Austin, Texas.

The usual rights are reserved.

## EXTRA PRIZES ARE ADDED TO STOCK SHOW LISTS

AMARILLO.—A last minute addition to the premium lists of Amarillo's first annual Fat Stock Show, March 2-5, 1931, appears in the catalogue, just off the press. Carload beef cattle have been added, carrying \$300 in premiums, contributed equally by the Fat Stock Show, the American Hereford Cattle Breeders, and Julian Bivins, of Amarillo. A carlot composes 15 animals, either steers or heifers.

Another feature will be a meat grading and cutting demonstration by the United States department of agriculture. Cattle will be graded, both on the hoof and on the block, and demonstrations given teaching the art of home-cutting.

Show officials and officers of the five organizations co-operating in the show are enthusiastic over the rapid completion of new facilities at the Tri-State Fair grounds, where the show will be held. The sale ring, seating 1,000, is nearly finished. Steel is practically all in place for the new sale arena. Comfortable quarters for attendants with the cattle are being installed, including gas, lights and hot water. Plenty of room is provided in the judging arena for groups and spectators inspecting the offerings. Offices where the business of the sale can be handled easily and quickly are going in right at the arena. Every precaution is being taken to provide the necessary machinery for making the show schedule move swiftly and smoothly throughout the four days.

## RELIEF AND POLITICS

Every right thinking person has profound sympathy for all who through no fault of their own find themselves unable to obtain the necessities of life. Measures for relief in such cases have a strong appeal, and it is to the credit of human nature that this is so.

But, unfortunately, certain politicians are apt to play upon the generous impulses of the public and by seeking approval of ill-advised and unsound schemes which are advanced in the hope of making political capital for their promoters. It is perfectly easy for a Senator or other legislator to gain a certain amount of publicity and applause through introducing a bill for raiding the treasury under the guise of affording relief for the destitute.

To carry out their plans, they would not hesitate to hamper the recovery of business and industry by imposing oppressive public burdens which would counteract the constructive efforts now being made to put more men on the payrolls. And right now bigger payrolls would afford the most effective and permanent means of relief.

These same politicians have not hesitated to reflect upon the Red Cross Society, the most capable and effective agency in the world in matters of personal relief. Red Cross officials declare that their efforts have been hindered by these attacks of politicians who want credit for themselves, which they seek to obtain by proposing vast government appropriations to be expended under the direction of other politically-minded agents.

President Hoover very aptly characterized such tactics as "playing politics at the expense of human misery."

## FACIAL EXPERT TO BE IN CANYON NEXT WEEK

Announcement is made this week by Miss Marie Wallace that on Tuesday, Wednesday and Thursday of next week free demonstrations of Paul Velen's famous line of cosmetics will be given at the Marie Beauty Shop.

Miss Wallace is bringing a facial expert to have charge of the demonstrations and she invites the women of Canyon to make appointments for free consultations on their beauty problems.—Adv.

## They Set Air Endurance Record

These girl flyers, Bobbie Trout, left, and Edna Cooper, right, made their marks in aviation history when, by keeping aloft their plane "Lady Rolph" for more than 33 hours, near Los Angeles, they set a new world's endurance refueling record for women and then continued on. They alternated as pilots.

## TO TEACH TEXANS TEXAS

The slogan "Texans, Let's Talk Texas!" is about to be put into effect through the medium of that dynamo of public information, advertising. Texans are to be advised of the potential possibilities and the already discovered talents of business and commerce of their state through a campaign fostered by the regional chambers of commerce and for the first time in history Texans will have an opportunity to learn, through facts and figures, just what an empire they are residing in.

Commenting upon the subject, The Abilene Evening Reporter sums the matter up in a most satisfactory manner. Says The Reporter:

"The regional chambers of commerce of Texas—West, East and South—will spend fifty thousand dollars a year for the next five years on a work that the thoughtless might consider a case of carrying coals to Newcastle, but in reality is something that must be done before Texas can hope to attain success in the development of its natural and manufacturing resources.

"It is planned to spend this money in an advertising campaign to acquaint the people of Texas with the natural resources and industrial possibilities of their own state.

"The salesman who doesn't know all about his product and believes in it is a poor salesman. Similarly the Texan who doesn't know something about his state's resources and possibilities is a poor salesman of Texas. If he tries to tell the prospective investor from another state just why Texas should be a good place to invest money or information or lack of enthusiasm that is based on facts.

"Some leaders have realized for a long time that it would first be necessary to sell Texas to Texans before it could be sold to other states.

"A five-year campaign of education with Texas as the subject and Texans as the pupils should result in a better understanding of our problems and a fine appreciation of our resources. Then we can tell the world about Texas and be convincing about it.

"Let's get going!"

Too long have Texans been content to advertise their state by sending delegations to the north and east to arch in parades clad in boots, chaps and broad sombreros. Too long have Texans stood silently by while New York Semantics, at the helm of the motion picture industry, have shown Texas on the silver screen as a desert, filled with tough hombres who wear horns and shoot their grandmothers if the morning porridge is cold. It's time now to let the world know the truth about Texas and here's no better place to start advertising like charity, at home.—Lubbock Avalanche.

## THE MAGIC OF OLD DAYS

Sometimes one is forced to wonder if we are able to recognize romance when we see it at close range. If it is far enough away, of course, it is recognizable. Miles of distance or years of time can put a haze about any object and make it look like the relic of a fairer day; but that same object, brought to our immediate vicinity, loses its magic. Romance is always a thing of yesterday, or something that lies just over the next hill. It is never in our own door-yards.

All of this reflection is provoked by a perfectly common place little news item; a brief announcement that another middle-western electric interurban railway is about to go out of business. And if you fail to see anything romantic about an electric interurban railway, just stop and think for a minute about the necromancy wrought by the passage of the years.

Electric railways have been hav-

ing a high mortality rate lately. The hard-surfaced road and the omnipresent automobile have combined to kill them by the score. Those that survive have to fight very hard indeed. For most of them the struggle has been too great.

There is a curious parallel here, between the electric railway of today and the canal of a century ago. Just as the electric railway along in the 90's was hailed as a tremendous boon to the rural districts flanking big cities, so the canal of an earlier generation was greeted. The canal was an invaluable artery of commerce. Its clumsy, horse-drawn barges played a big part in the development of the nation. Then the railroad came along, and the canal died.

Today the canal looks romantic to us. If anyone of us could step out now and make a trip on a canal boat of 1830 he would feel that he had done something comparable to taking passage on one of the Columbus' caravels. The canal barge, having been wrought upon by time and disuse, gleams for us with an aura it never had while it was alive. In its day it was simply a public utility—subject, doubtless, to the same sort of wrathful obprobrium that public utilities always get. Now, being long dead, it is a thing of romance.

Our great grandchildren, in their turn, will look on the electric railway precisely as we look on the canal. It will be, to them, one of those delightful bits of furniture used in the inexpensively quaint, colorful and romantic early 1900's. They will envy us our privilege of swaying over bumpy tracks through quiet rural scenery, and will half wish that the automobile had not come to end that privilege—just as we half wish that the railroads had not killed the old canals.

And that is the way it usually goes. Romance is always something that one's grandfather had. It lies beyond the borders of everyday life, and it always will—which is why we are always seeking it and never finding it.

## Jowell News

Everyone was glad to see the rain which fell here Tuesday morning, but much more is needed.

Among those from this community that attended the singing convention at Canyon Sunday were Mr. and Mrs. W. H. Lowe, Miss Stella Carpper and Mr. and Mrs. Ross Campbell and Tom Hileman. Bill Sims and Leroy Leavitt returned home Friday evening after a three weeks' trip in southern Texas.

Quite a number of friends and relatives took dinner at the home of Louis Irbeck and family Sunday, it being the thirty-fourth wedding anniversary of Mr. and Mrs. Louis Irbeck.

Miss Hazel Bezzar of Hereford is spending a few days with Mrs. Louis Irbeck.

Mrs. W. F. Glenn and son, George, of Arney, visited Friday and Saturday with Mr. and Mrs. A. L. Glenn.

Mr. and Mrs. Claude Fewell and Mr. and Mrs. Buron Fewell spent Saturday in Canyon with Mr. and Mrs. Henry Burtz.

A. L. Glenn and Harold Leavitt are quite ill this week.

Farmers Interested in Terracing. Much interest is being taken in terracing in Gray county, according to County Agent Thomas, who reports that he ran lines on 1400 acres of land during the past month. The terraces are rapidly taking form on the lines that have been run. The demand on the county agent for running terrace lines has been so great that his time has been taken up for two weeks in advance most of the time. Office days were dispensed with during the month and the time spent in the field.—McLean News.

## ONLY A FEW IDEAS

By Bruce Barton

Twenty years ago I heard a famous editor deliver a talk on advertising before the Chicago advertising club. I was just out of college and had seen very few great men, so the talk made a deep impression. I remember the editor said that "reputation is repetition," and he told some stories to illustrate the point.

The other night in New York I heard the same great editor speak on the same subject. To my surprise it was the very same speech.

Another speaker was a celebrated banker whom I had heard on two previous occasions. He, also, repeated himself.

As we left the dining room one of my friends who had noted the repetitions remarked on them gloomily.

"Rather discouraging to see that even the big minds have so little in them," he said. "Makes you wonder if human ingenuity is coming to an end."

"They say that though the stars appear so numberless, you can not count more than a thousand," he said. "Well, there are few thoughts. Count the books and you would think that there was immense wealth; but any expert knows that there are few thoughts which have emerged in his time. Shut him in closet and he could soon tell him all. They are quoted, contradicted, modified, but the amount remains computably small."

It is a good thing for humanity that this is so. Nature apparently designed the game of human progress to last a long time, and provided that only a small advance should be made in any one generation. Suppose one mind should suddenly discover everything. How it would take the zest out of the game!

Moreover, it is decidedly heartening to us average folks to know that only a very little difference separates us from the smartest Lincoln remarked on it. "I have talked with great men," he said, "and I can not see wherein they differ from others."

Generally speaking, the great achieve their greatness by industry rather than by mere brilliance. The editor whom I quoted is said to be the highest paid in the world. But if you divide his salary by the more than two hundred newspapers which print his editorials, he is the lowest priced worker whom each of those papers employs! He produces more than anyone else and works longer hours to do it.

I was glad that I went to that dinner. It reminded me how little wisdom and genius really rule the world; how far industrious effort can stretch the few ideas, or even one idea.

Many a father wouldn't know he owns a car if the family didn't tell him where to go to pay a repair bill.

## CLASSIFIED ADVERTISING

Classified rates are two cents per word for the first insertion, and one cent per word for each subsequent insertion. This rate applies to all legal notices.

All advanced advertisements must be paid in advance unless arrangements are made in person to care for the payment of them. Classified ads received through the mail will not be published unless accompanied by the cost of insertion.

Words ad intelligently—do not try to save a few cents by leaving out necessary words; tell who, what, where, and, if essential, when and why.

## FOR SALE
